## Nahant Street Will Be Rebuilt As 50-Foot Road

A one-mile section of Nahant street will be widened and rebuilt at a cost of about \$300,000, with the State, the city and the county all sharing in the costs. The job will be done over a two-year period.

Scheduled for reconstruction as a 50-foot roadway is the portion of the street between Winchester st. in Newton Highlands and Dedham st. in Oak Hill.

Half the cost of the job will be paid for by the State, and the remaining expense divided.

## 19 Bridges Go Down In Path Of New Toll Road; 15 To Be Reconstructed

Nineteen bridges spanning the Boston & Albany railroad tracks in Newton will be torn down to make way for the extension of the Toll Road.

Fifteen new bridges will be constructed to replace them at a cost expected to run into millions of dollars.

In a few cases where the new spans are to be built at different locations the present bridges will be continued in use until the new ones are completed.

But in most instances the existing bridges will have to be demolished before the new ones are built, making it necessary to detour traffic while they are out of service.

Public Works Director William S. Pratt has been named by Mayor Donald L. Gibbs as the city's coordinator with the Turnpike Authority to iron out the many problems which will arise in connection with the Toll Road project.

One of the things Pratt will endeavor to do will be to work out a timetable so that too many of the bridges are not out of service at the same time.

The demolition of the existing 19 bridges is necessary because of the width of the Toll Road. Bigger bridges will be constructed to replace them.

When the new bridges are completed, they will be maintained by the Turnpike Authority, relieving the city of that expense.

Bridges will be razed on St. James st., Washington st. in Newton Corner, Centre st., Centre ave., Richard-

## Newton Teachers To Get Opportunity Of Serving In Nigeria

Teachers in Newton, high and junior high schools who desire to teach in Nigeria for a two-year period will be invited in the near future to volunteer for such service.

The volunteers will be screened by educators at the Harvard Graduate School of Education, and seven or eight of them will be chosen to teach in Nigeria starting next Jan. 1.

Members of the Newton School Committee are cooperating in the project by agreeing to grant two-year leaves of absence without pay to teachers desirous of going to Nigeria and picked by the Harvard educational experts.

Other key officials in the Newton school system also will go to Nigeria for a month or two, probably next summer, to help get a school started which is being financed jointly by the United States and Nigerian governments.

Slightly more than half the teachers in the Nigerian school will be Newton teachers on leave, it is expected.

## By JAMES G. COLBERT Atty. Gen. McCormack Set To Enter Fight for Senate

Is a bruising battle inevitable between Attorney General Edward J. McCormack, Jr., and Edward M. (Ted) Kennedy, youngest brother of the President, for the Democratic nomination for the U. S. Senate?

If such a fight develops, will it be settled at the Democratic State Convention in June? Or will it carry over into the Democratic primary next September?

How much bitterness would such a conflict generate and how many scars and wounds would it leave upon the Democratic party?

Those are questions Democratic politicians are asking as they ponder the possibility of being forced to take sides in a state-wide clash between the McCormacks and the Kennedys.

A head-on battle between Attorney General McCormack and Ted Kennedy at the Democratic State Convention may not be inevitable, but at the moment it appears likely.

McCormack is planning to cast the die and announce his candidacy for the Senate within a matter of days.

Persons close to Ted Kennedy say he probably will toss his hat into the senatorial ring shortly after he celebrates his 30th birthday on Feb. 22.

If McCormack and Kennedy make their official pronouncements and formally enter the fight for the State Convention endorsement, it is improbable that

## Capacity Attendance Is Seen For Annual Dinner

Admiral Hyman G. Rickover, internationally noted as the "Father of the Atomic Submarine" will put aside his U. S. Navy background and experience and talk on education as the principal speaker at the Fourth Annual Achievement Dinner Meeting of the Newton Chamber of Commerce to be held next Monday evening, February 5th at Lyons Hall, Boston College.

Education is a theme close to the heart of Admiral Rickover. He is the author of two books on the subject, "Education and Freedom" published in 1959, and "Swiss Schools and Ours: Why Theirs Is Better", published this year. Congressman Laurence Curtis will introduce the speaker.

Present reservations for the dinner indicate a capacity attendance of more than 650 people at the annual event.

A feature of the evening, the annual presentation of the Chamber of Commerce "Achievement Award" will be made to U. S. Senator Leverett Saltonstall, a native of Newton and a former member of this city's Board of Aldermen.

Governor John A. Volpe will represent the Commonwealth of Massachusetts at the head table; the City of Newton will be represented by Mayor

Congressman Westland is an aggressive campaigner having fought hard to hold his seat in Congress since 1952.

## Gibbs Disturbed Over Newton Fiscal Picture

Faced with the prospect of a substantial increase in Newton's tax rate over last year's figure of \$62.80, Mayor Donald L. Gibbs is now in the process of trimming down the preliminary budget requests submitted to him by municipal department heads.

Indications are that cuts totalling many thousands of dollars will be made in the city's budget by the Mayor before he submits it to the Board of Aldermen two weeks hence.

Proposed expenditures for virtually all branches of the city government except the school department are in for a pruning by the Mayor.

Mayor Gibbs, who expressed himself as somewhat disturbed by the fiscal picture confronting him, emphasized the need for budget belt-tightening and holding appropriations as low as possible.

He pointed out that the increase in the school budget alone, which he has no power to cut, will result in at least a \$3 rise in Newton's tax rate.

In addition, Gibbs revealed, the surplus fund into which the city can dip to

keep down the tax rate, is \$470,000 smaller now than it was a year ago.

Where Newton last year at this time had \$1,592,000 in its surplus fund, it now has \$1,119,000, he reported.

The drop in the surplus fund is due partly to the fact that the unexpended budget balances of city departments were smaller at the end of last year than at the close of 1960.

Another factor responsible for the smaller surplus is that Newton did not receive an end-of-the-year windfall from the State as has happened in other

## Newton's School System Defended At Davis PTA

A vigorous defense of Newton's public school system was voiced by School Committee Chairman Haskell C. Freedman during a panel discussion at a meeting of the Davis School PTA in West Newton.

Freedman declared that a talented student can graduate from Newton High School or Newton South High School in three years and qualify for admission to the best colleges in the United States.

He added that a school system which can make such a claim is a good system.

Chairman Freedman made his defense of Newton's school department while answering a question put to him from the floor by Werner Gumpertz.

Mr. Gumpertz had expressed agreement with Admiral Hyman Rickover, father of the Polaris submarine, that present-day school children are being taught too many ex-

traneous subjects and not enough solid facts.

"I think the pupils should be taught English first, English second and English third," Mr. Gumpertz stated.

Chairman Freedman replied that he did not consider Admiral Rickover either completely right or completely wrong.

Freedman said that in order to answer Rickover he

Added significance is given this year's event by the fact that Governor John A. Volpe will deliver a major address at the dinner. Poised as he is for his forthcoming campaign for reelection, what his talk will reveal is stimulating much speculation in Newton.

## MORE WITHHOLDING COMING?

DO YOU WANT the Federal Government to withhold 16 1/2 per cent of your interest and dividend income? This proposal would require you to file certificates of exemption or claims for refunds each year if the amount withheld were not justified.

THE U. S. TREASURY WANTS LEGISLATION to do exactly that. Only pressures of other legislation prevented Congress from voting on this issue last session. It is sure to get early attention by Congress in 1962.

WHAT CAN YOU DO to avoid compulsory withholding? For one thing...

REPORT FULLY AND ACCURATELY all interest and dividend income received or credited to your account. This applies to income from stocks and bonds of corporations, including mutual funds... savings accounts in commercial, savings and co-operative banks... share accounts in savings and loan associations and credit unions... postal savings... and United States savings bonds.

MORE TAXPAYER RETURNS WILL BE CHECKED as improved enforcement machinery is put into use.

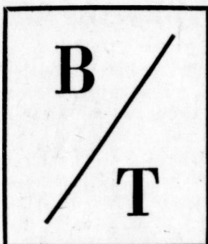

FULL REPORTING of dividend and interest income will lead Congress to feel less need to enact compulsory withholding.

years when the city's share of the State income tax was under-estimated.

While the jump in school expenditures and the reduced surplus would combine to boost Newton's tax rate more than \$4, that is only part of the picture, Gibbs explained.

He said various city departments will need more money in 1962 than they spent in 1961.

Exactly how much more he will sanction for them is something the Mayor will determine in the next two weeks.

After the Mayor finishes his budget-trimming job, the Aldermen will take over and give the suggested appropriations still another pruning.

Like the Mayor, however, the Aldermen cannot cut the school budget.

Experts on municipal finance declare that Newton cannot avoid another rise in its tax rate regardless of the budget-trimming.

New taxable property in the city will not yield anywhere near the additional revenue needed to offset the increased cost of running the school department and operating other branches of the city government, it is stated.

## Political Highlights

(Continued from Page 1)

either would turn back or change his political objective—at least until one or the other is vanquished at the June conclave.

Some political pundits are not yet fully convinced that Ted Kennedy will really run for the Senate.

They think he still might be persuaded to set his sights a little lower on his first try for public office.

But the impression one gets from talking to members of the Kennedy camp is that Ted already is running for the Senate even though he has not officially said so.

There is no doubt whatever as to McCormack's political plans. Nor is there really any course open to him except to run for the Senate.

McCormack has a publicly stated he will not seek another term as Attorney General. He rejected overtures that he stand for the Governorship in 1960. He said then that his goal was the Senate and that he was gambling John F. Kennedy would be elected President and that there would be an opportunity to run for his seat.

Whether McCormack and Kennedy would abide by the action of the Democratic State Convention is uncertain. McCormack probably would if an agreement were made in advance of the conclave that whichever one lost there would run for some other office.

Under the procedure normally followed the Senate endorsement is the first one settled at a State convention.

If young Kennedy lost, he could switch and run for Governor or Congress-at-large in the event no redistricting law is enacted.

If McCormack was the loser, he could shift his target to the Governorship. It would be a little awkward for him to run for Congress since his uncle, Speaker John W. McCormack, would be in that field.

A convention struggle between McCormack and Kennedy probably would not generate any unusual amount of bitterness although some feeling would be likely to develop between supporters of the two men.

A primary battle, however, in which McCormack and Kennedy carried their campaigns directly to the Democratic voters, would be certain to leave some scars and wounds which would lessen the chances of the victor in the final November election.

To what extent President Kennedy and Speaker McCormack would place their prestige on the line in such a fight can only be a matter of conjecture.

It is somewhat difficult to visualize President Kennedy taking the stump for his younger brother in a Democratic primary. Speaker McCormack probably would restrict his activity to one or two television addresses. He'll be forced to wage his own state-wide campaign for reelection if no congressional redistricting bill is passed.

That appears to be the situation as Democratic leaders wait to learn whether there is to be a battle within their party between the younger brother of the President of the United States and the nephew of the second most powerful figure in the national government.

What would be the issues if a knock-down fight does start between McCormack and Kennedy?

McCormack undoubtedly would campaign on his record as Attorney General. Ted Kennedy has no public record which could be used as an issue either for or against him.

How much of President Kennedy's great personal popularity in his home State would

#### Toll Road Route

Editor  
Newton Graphic  
Much has been said about the toll road through Newton and the problems, legal and otherwise, that will arise from the property losses incurred by its progress down the toll road right-of-way.

The Star Market and other places of business seem to be getting the most publicity in being in the way of the toll road route.

But what of the churches and their properties which are to be taken? The Congregational Church in West Newton and the United Church in the same neighborhood.

These same properties and buildings don't have the financial ability or alternate locations to move as have business houses.

What about it, Mr. Callahan? Have you an answer for church problems?

Therefore, we were extremely fortunate to have the support of your newspaper, and we wish to publicly acknowledge this fine assistance. We hope that we shall continue to be worthy of your fine support throughout the year.

#### Note of Appreciation

Editor,  
Newton Graphic,  
Dear Sir:

Our family would like to thank the Newton Police Dept. and Dr. M. M. Gilson for their prompt assistance following the emergency call for help at midnight recently when our mother, Mrs. Esther Bernstein, was suddenly and critically stricken.

It seemed that the doctor and police were in our home only seconds after being called by us. They were solicitous and capable. We are indebted to them all.

Sincerely,

## Headlights and Highlights From Newton High School

By JANET SHAPIRO

A seminar in critical reading for upperclassmen at Newton High School is being offered as an experimental course by Harvard University. The course includes the study and discussion of poetry, novels, and plays.

The students, limited to honor students in curriculum I English, are Bonnie Pheneey, David McCann, Jacki Grant, Karen Cohen, Nancy Ross, Gail Rubenstein, Martha Feldman, Bernard Mathaisel, and Susan Carroll. Mr. Roderick A. Jacobs, presently teaching English at NHS, conducts the seminar.

The recently elected officers of the sophomore class at NHS are Jim Hoover, president; Dave Bliss, vice president; Vicki Oppen, treasurer; Bev Marr, secretary; Lisa Lavelly and Annie Moore, associate council representatives.

The 1962-1963 Orange Book, which serves as an orientation booklet for all students at NHS will undergo several changes in its layout under the direction of Monica Meyer, editor-in-chief for the coming season.

The other staff editors are Beverly Alpert and Leslie Glazer, orientation; Susan Finzen and Elizabeth Kopans, traditions and regulations; Elizabeth Gesmer and Richard Stone, academic; Edward Silvers and Steven Steinberg, boys' athletics; Judy Conquest, Harise Rotman and Jane Siegal, school government; Barbara Greenberg and Peter Wolf, clubs and activities; Carol Dubins, copy; Ellen Sturart, exchange; and Ellen Rover, art.

According to president Martin Wolfson, "the Key Club serves the school and community, builds good citizenship and awareness of civic problems, and prepares its members for leadership roles in the community." The club, open to sophomore, junior, and senior boys, is sponsored by the Newton Kiwanis Club in cooperation with NHS.

Bob Spinner and Ken Berk are the vice-presidents of the club. Alan Cohen is secretary. Don Rossman is treasurer, and Mr. Cornelius Allen is faculty advisor.

Three plays will be presented on Friday of next week (February 9), by NSHS and NHS. It is the annual Drama Festival. As in previous years, three plays are presented, one of which will be selected to represent Newton at the Regional Drama Festival. If chosen at the Regional, the play will be given at the State Drama Festival and perhaps eventually at the New England Drama Festival. "Patrick Bronte and the Saint," "Anastasia" and "The Knave of Hearts" are the plays to be performed by the students of NSHS and NHS.

The cast of NHS' "Patrick Bronte and the Saint" includes Mary Corey, William Krinsky, Jeffrey Hahn, Lisa Hickey, Charles Miller, Richard Nathan, and Marilyn Rideout; and of "The Knave of Hearts" is: David Blocker, Robert McCarthy, Robert Chernis, James Shane, Jimmy Belizekian, Harlon Schneider, Paul Eisman, Jay Theise, Jacki Grant, Vicki Oppen, Trudi Howard, Jane Carmen, Deborah Wasserman, Carol Horowitz, Joyce Wasserman, and Marilee Wyman.

Members of the NHS Red Cross Chapter completed a drive for money used to purchase materials which will be sent to a disaster area. Approximately 10 members of the chapter recently visited the West Roxbury Veterans' Hospital with 60 dozen homebaked cookies and coffee for the patients. Next on the agenda is a "Fun Book" which will include pictures, cartoons and crossword puzzles for hospitalized children.

#### School Boys In Music Recital

Two Newton school boys who are students at the Wellesley Branch of the New England Conservatory appeared in a recital at the Parish Hall of the Unitarian Church, Wellesley Hills recently.

Joseph Singer, 31 Chase street, studies piano with Mrs. Rhoda Rabin. Neil Rose, 131 Brandeis road, Newton Centre, is a pupil of Reginald Hachey who was guest artist at the recital.

## Newton Youth Advisory Committee Is Dissolved

The Newton Youth Advisory Committee sponsored by the Newton Community Council has been dissolved, according to a recent joint announcement by the Community Council president, Dr. Donald E. Bowen and Youth Advisory Committee chairman, John W. McLeod.

The prepared statement giving the background and reasons for this action reads as follows:

"The Newton Youth Advisory Committee has been available since April 1959 for the following purposes: (a) to study the needs and problems of young people in Newton, and (b) to enlist support to help meet these needs and problems.

"In an attempt to carry out this purpose, the Committee has talked with many people in Newton connected with youth services. During this time, no major problems or questions were raised by these people or others in the community.

"The questions which were raised by these people were of such a nature that the committee, for the most part, was unable to be of any assistance. The committee did prepare a report on Newton's youth needs for the Massachusetts Committee on Children and Youth. In addition, the committee, primarily through the efforts of one of its members, explored the juvenile officer question among neighboring communities.

"The committee was not structured to undertake careful analytical research which could be employed to detect and define problems. Our committee feels that such research is probably needed at this point in order to carry the work of the group any further. At the same time, however, the committee could not agree on a problem or need which could be the focus of such research. Therefore, the committee is unable to

make recommendations for further study or activity."

For these reasons the Community Council Governing Board voted to dissolve the Newton Youth Advisory Committee with a sincere expression of thanks to the many members of the Executive Committee for the time and energy they gave to this project. Also thanked were the more than 100 clubs and organizations who named representatives to this group, who were called to two meetings during the existence of the Committee.

If the need for this group or a similar one becomes evident in the future, the Governing Board stands ready to take action.

Her discussion will include various reading materials for children, and among them, comic books; helping children with their homework, and assisting them in developing good reading and study habits.

**BUSY, LITTLE HELPING HANDS** — Lending valuable assistance during recent Christmas Seal campaign and post-campaign work were many local volunteers, including these busy Camp Fire Girls with Leader Mrs. Singer. Girls, seated, left to right, Myrna Goldman, Joan Saltzman, and Ellen Singer; standing, Ellen Orne, Mrs. Singer, and Karen Weiner, all from Oak Hill. They gave up their Saturday afternoons to help at Newton Tuberculosis headquarters.

## "Reminder Letters" For Tardy Mailers

## Christmas Seal Campaign In City Scores Another Success

The Newton Tuberculosis and Health Association this week announced another successful Christmas Seal campaign with approximately 19,552 letters mailed in the city.

The association expressed sincere appreciation to the generous response to the letters have been mailed out to those who have overlooked an answer to the seal letters.

"These are not intended as 'dunning letters' explained Miss Hilda G. Hope, executive director, as she explained the work of volunteer workers, "but simply letters or notes to remind friends of the association who really intend to continue their support yet, who have overlooked the mailing of their donations."

Miss Hope stated that for

over fifty years the work of the Newton Tuberculosis and Health Association has been carried on mainly by a large corps of volunteers from the Newton Federation of Women's Clubs.

This year has seen a growing interest among junior volunteers some of whom contribute their time to the credit of their mother's club or others gain credits for a junior organization.

Forty-eight and one-half hours have been contributed by the following: Marie Slade, Lee Madsen, Janis Linda, Laurie Fleishman, Ellen Orne, Karen Weiner, Joan Saltzman, Ellen Singer, Myrna Goldman all Camp Fire Girls from Oak Hill and Linda Moller, Nadine Karsh, Gail Bernstein, Ann Moscato, and Martha Bowen, all Mariner Scouts.

## Newton High Hockey Team Defeats Arlington 4-1, On Way To League Title

Newton High School's outstanding hockey team staked out a strong claim to its first Greater Boston League ice championship in eight years by scoring an impressive 4-1 victory over a powerful Arlington High team at the Boston Arena last Saturday.

Barring the most surprising upsets the Orange skaters should forge ahead to the league title since they now lead second-place Cambridge Latin by a solid five points.

Three victories in their next four games or two wins and two ties would assure the Newtonites of the league championship even if Cambridge wins all its remaining contests.

Newton's next test is with

an improving Waltham sextet at the Arena at 1 p.m. Saturday afternoon. Waltham came up with a surprise 5-2 triumph over Rindge Tech last Saturday and may offer stubborn opposition to the Orange.

The 4-1 triumph over Arlington avenged a 2-0 defeat suffered earlier in the season. It was Newton's first hockey victory over Arlington in more than four years.

Coach Sarge Kinlin's Newton skaters came from behind to win over the Spy Ponders. Outplayed in the early stages of the game and trailing 1-0 at the end of the first period, Newton roared back to score two goals in each of the second and third periods.

Sophomore Billy Cotter spearheaded the Newton attack, scoring the hat trick as he blasted the puck three times into the Arlington nets. Co-Captain Mike Ryan tallied the other Newton goal.

Goalie Don Mason played a tremendous game for Newton, coming up with some spectacular saves as Arlington turned on the pressure.

But all the members of the Orange squad came in for warm and deserved praise from their coach, for this was an exceptional team effort in which every Newton player turned in an excellent performance, and there was more than enough credit to go around for everyone.

## Newton Lions Plan Pancake Festival For Money-Raiser

The Newton Lions Club will sponsor a Pancake Festival in the cafeteria of the Levi Warren Junior High School on April 7th. The day long festival will be attended by the one and only Aunt Jemima.

The event will help raise funds for the eye research and Sea Scout programs of the Lions Club. Because of the importance of these civic projects, the Newton School Committee made available the school cafeteria for the festival.

King Lion Dr. Robert Kirschbaum has appointed Victor A. Nicolazzo, first vice president, as publicity director of the festival. Ralph Sanguinetti is

chairman of the house committee.

Other committee chairmen include: Al Mosher, general chairman; Harold "Mickey" Boyajian, in charge of procurements; Dr. Morton V. Ross, tickets, assisted by Sidney Parad. Other committee chairmen will be announced later.

Dr. John T. Evans, skipper of Sea Scout Ship in Newton, which has been sponsored by the Newton Lions Club for the past seventeen years, has announced that the Sea Scouts will be cooperating fully in the sale of tickets.

The trouble with today's individualists is that it's getting more and more difficult to tell them apart.

## Why did you buy a house?

When you decided to buy a house, you were probably thinking primarily of your wife and children.

You wanted to be sure that they would have a nice home to live in—one that suited the family needs. Another concern was for the environment in which your children would grow up. You wanted good schools... plenty of play space... nice neighbors.

These are fine reasons for buying a house, and they're just as good for making sure that your family can keep it if something should happen to you.

Metropolitan offers several ways for you to make sure that your family will be left with a deed instead of a debt.

A Metropolitan Mortgage Term Plan is one way. It is designed to cover the usual type of home mortgage, which decreases each year as payments on the principal are made. The face amount of the insurance also decreases, so that the level premium is relatively inexpensive.

Another way, more satisfactory for most younger men, is a Metropolitan Whole Life policy. This is permanent insurance.

In addition to assuring that funds will be

available for payment of the mortgage in the event of death, it also builds cash and loan values which furnish a nest egg to help take care of payments in case of illness or other emergency.

And because the face value does not decrease, it can be used for continuing protection or be fitted into your retirement plans after the mortgage is paid off.

Your Metropolitan Representative will be pleased to explain these plans to you, and help determine which type is best suited to your particular family needs and budget allowances. So why not call him today.

## Sacred Heart Quintet Leads Catholic Loop

Sacred Heart High School's smoothly operating basketball team moved into the lead in the Catholic League as it defeated previously unbeaten St. Mary's of Cambridge 48 to 34 Monday night at the Catholic Memorial High School gymnasium in West Roxbury.

The Sacred Heart hoopers, who have qualified for the Tech tournament, now have a league record of 10 victories and no defeats and have an overall record of 12 wins and one loss.

The Newton youths established their superiority early in Monday night's game with St. Mary's, running up a 19-7 lead in the first period.

St. Mary's was not in the contention thereafter, with Sacred Heart's lead never dropping below a 9-point margin.

The defensive play of the Sacred Heart basketball team was outstanding. St. Mary's had been averaging 64 points a game until it encountered the high-flying Newton quintet.

Bob Anderson, a junior who was playing with special arch supports, was the high scorer for Sacred Heart as he dropped in six baskets and added two foul shots for a total of 14 points.

Co-Captain Hugh Gallagher and Paul Kerns were brilliant on defense, and Gallagher also tallied 12 points to rank right behind Anderson as the game's high scorer.

Kerns snagged 20 rebounds, had 10 assists and personally accounted for 10 points as he played a big part in the Sacred Heart triumph.

One of the notable features of the game was the ability of the well-coached Sacred Heart players to adjust and meet St. Mary's floating zone offense.

Three busses carried students, parents and other supporters to West Roxbury to cheer on the Sacred Heart boys.

## Mrs. Coogan, Retiring Chairman, Feted By Local Camp Fire Girls

Mrs. Peter Coogan, who has retired as chairman of the Newton District of the Camp Fire Girls, was feted at the annual meeting of the organization on Monday, January 29.

Leaders, sponsors and board members of the Camp Fire Girls paid tribute to Mrs. Coogan, and the Barbara Coogan Campership to Camp Kiwanee was established to honor the former chairman.

During the meeting, Mrs. Coogan turned the gavel over to Mrs. Howard Boardman, of Newton Centre, the new Newton chairman.

Honors were bestowed upon two other members of the Board who are retiring this year and have had groups of Camp Fire Girls for the years with Mrs. Coogan — Mrs. Charles L. Ranker and Mrs. Benjamin Loeb, both of Newton Centre. Mrs. Orazio Vaccaro presented a silver bowl to Mrs. Renker and Mrs. Jean Dunham of Wayland presented a silver bowl to Mrs. Benjamin Loeb.

Thirteen years ago at the request of several of the young girls in her neighborhood, Mrs. Coogan was responsible for re-activating the Newton Camp Fire Girls, and under her wise guidance the Camp Fire Girls have grown in this time to 567 members and 229 leaders.

The Mason and Bowen schools were the first to have Camp Fire Girls, and they have grown to include children in twelve schools. Camp Fire Groups in Newton are formed only as requests are made by the mothers and girls, as the belief is that the program should spread as requested.

There are now five Camp Fire Neighborhoods in Newton — the Auburndale Community — Memorial Park, Newton Centre, Oak Hill and Waban. Functioning in neighboring districts allows for smaller groups and informality. In smaller groups is stressed the quality of well-trained leaders and good programming. Mrs. Coogan has stressed, too, that girls should be with their own friends in their own neighborhoods. The Camp Fire Program is for girls from the third grade through High School and Social Leadership.

Barbara Coogan's interest in Camp Fire began in East Cleveland, Ohio when she was twelve years old, and during three years in High School served as leader of a Blue Bird group to earn her Torch-bearer's Rank in Social Leadership. A graduate of Connecticut College, Mrs. Coogan received her camping experience at Camp Fire Camps, and was sent to New York by the Camp Fire Office to help edit the special Girls' edition of the Camp Fire magazine "Everygirl's". After her marriage to Peter Coogan, an attorney, Mrs. Coogan worked for the Cleveland Camp Fire Office as a Field Director and wrote many pageants produced there.

Mrs. Coogan wrote the script and lyrics for the Camp Fire Golden Jubilee held at the Boston Garden, and has written the books and lyrics for other birthday shows. Her special talents with children have always made these songs keyed at just the right age level for the children involved, and always in keeping with the abilities of the children's understanding. Mrs. Benjamin Loeb was responsible for producing and directing these productions.

Mrs. Coogan is "retiring" to a group of her own Camp Fire Girls, and will continue as a member of the Board of Directors of the Greater Boston Council and also Representative to the New England Regent I, Camp FG.

The program for the evening included the local debut of the special Camp Fire Girls' "Scorollfilm", presented by Miss Ruth Smith, District Director in the Greater Boston Council. Mrs. Murray I. Rothman discussed the technique and results of a Rumor Clinic conducted by

## Tufts-Newton Summer Seminar Project Has July Target Date

The sounds of young people actively engaged in doing something about civic problems will be heard again in July with the opening of the second session of the Tufts-Newton Summer Seminar in Public Affairs.

Newton residents will recall the clean-up of Edmonds Park during the midsummer of last year; also the freshly painted walls of the Community Center in West Newton, or the stirring interest in recreational facilities for the high school group in this city.

All these were the results of the afternoon action program of the Seminar. The

morning study sessions have been echoed in a lively seminar inquiring into the nature of Public Authorities; the meeting was held in December at Newton South High School for adult and high school members of the city. Several more Saturday morning sessions are planned.

The Seminar for next summer will be somewhat enlarged, but it will follow substantially the same format: a full day session, mornings devoted to a study of the problems a twentieth century citizen must deal with, and the afternoons to active work for community needs.

The staff members, as last year, will be Dr. Franklin Patterson, director of the Lincoln Filene Center for Citizenship and Public Affairs and Lincoln Filene Professor of Citizenship and Public Affairs at Tufts University; A. Donn Kesselheim, formerly House-master of Beals House, presently on leave for completion of doctoral studies at Harvard; Wayne Altire, chairman of the Department of Social Studies in the Newton High Schools; Miss Bonnie Allen, teacher in the Department of English and Coordinator of Student Teachers in the Newton High Schools.

Guest lecturers will be drawn again from the wide range of distinguished scholars and civic leaders in the Boston area. And again, as last year, the members of the Seminar will be students who have completed the junior year of high school and who are recommended by social studies teachers as young people showing both ability and concern in the area of public affairs.

A reception at historic Wayside Inn, South Sudbury, followed the military wedding in nearby Martha's Vineyard at which Miss Deborah Lou Harvey became the bride of Lt. Donal Willis Elliott, USN.

The bride is the daughter of Mr. and Mrs. Charles William Harvey of Wellesley, formerly of Newtonville. Lt. Elliott is the son of Mrs. Wesby-Gibson Elliott of West Orange, N. J. The Rev. Edward W. Maury

Given in marriage by her father, the bride's Bianchi gown was fashioned of ivory peau de soie. Her molded bodice had a modified scoop neckline marked with Alencon lace. Her skirt, caught at the back with cascading self material roses over a large butterfly bow, terminated in a chapel-length train.

She wore a mantilla of family heirloom imported English lace, and carried a bouquet of white roses.

Mrs. George Dow of Madison, N. J., sister of the bridegroom, was matron of honor. Mrs. Hadley Ford of Wantagh, Long Island, N. Y., Mrs. Roland Haynes of North Beverly and Mrs. Ira Marder of New York City were her other attendants.

Lt. Albert O. Herzer, USN, of Corpus Christi, Texas, was the best man. The ushers were Athol W. Cliff of Milburn, N. J., Hadley Ford, USMC, of Wantagh, N. Y., and Lt. Thomas Glasgow, USN, of Monterey, Calif.

### Newton Trackmen Defeat Strong Rindge Tech Team

Newton High School's track team took over the undisputed lead in the Division 1 metropolitan league by defeating a strong Rindge Tech team 43-34 at the East Newton street Armory last Saturday afternoon.

The Tiger trackmen, defending champions, can win another league title by besting Malden in a meet scheduled for a week from Saturday.

Newton and Rindge both went into last Saturday's meet unbeaten. Each had a record of three victories and no losses.

The Orange won in the face of some bad breaks and a questionable call by two judges who first disqualified Rindge in the relay, after Gerry Mazur was bumped off the track, but later reversed their ruling.

Coach Ed Boyle and his charges left thinking they had been credited with a win in the relay only to discover later that the result had been shifted and the points given to Rindge.

But Boyle had little to complain about, for his pupils came up with some great performances.

The Tigers swept the 1000-yard run, with Dave McCann, Sid Bliss and Tom Weiskel finishing in that order.

Co-captain Tucker Lillis and Bernard Finkle placed first and second respectively in the mile.

Co-Captain Bruce Reed made the best high jump of his career, clearing the bar at 5-11 to win that event.

Larry Kemelgor came through to win the shot put, and Ken Gleason, shifted to the event only the week before, placed second to offset the loss of injured John Morgenthau.

It was a big day for the Orange and Newton High track followers.

Mr. Chagall and President and Mrs. Yitzhak Ben Zvi of Israel will be among the guests at the dedication. After the ceremonies the group will attend a reception tendered by the President and Mrs. Ben Zvi.

The Jubilee Mission will tour the country and be entertained in the home of several prominent Israelis. They will be the guests of a kibbutz and attend a special reception planned by the Mayor of Jerusalem.

Art critics expect the Chagall windows will be one of the highest points of cultural interest in the Middle East, attracting tourists from all over the world.

Tolerance is the ability to shrug your shoulder even when you've got a chip on it.

## Local Public School Costs To Double By 1970 Newton Board Chairman Warns

NEWTON  
CHAMBER OF COMMERCE INC.

**AMONG GUESTS AT ANNUAL DINNER** — Among the glittering head table roster at the Chamber of Commerce Achievement Dinner were these guests caught informally before the curtain was raised Monday night. Left to right, Justin T. Horan, executive director; Senator Leverett Saltonstall, award recipient; T. Frank Copp, incoming Chamber president; Vice Admiral Hyman G. Rickover, principal speaker; and Grenfell A. Swim, retiring president Chamber of Commerce.

### Senator Saltonstall Acclaimed, U.S. Education System Hit At Chamber Of Commerce Dinner

The City of Newton and its Chamber of Commerce honored a native son, U.S. Senator Leverett Saltonstall, as the recipient of the 1961 Achievement Award of the Garden City businessmen, and heard a terse talk on "Education In A Free Society" by Vice-Admiral Hyman G. Rickover, U.S.N., at the Fourth Annual Chamber of Commerce Achievement Dinner held at Lyons Hall, Boston College, last Monday night.

Admiral Rickover hit strongly at the American education system and criticized the United States deduction of superiority over the rest of the world based merely on excessive

wealth and an abundance of gimmicks, television sets and motor cars.

A capacity crowd of several hundred attended the event which annually points up the achievements and expansion of the Newton Chamber of Commerce. Executive Director Justin Horan described it as the "largest and most successful of all four."

Senator Saltonstall was honored for his service to City, State and Nation and was presented the coveted Achievement Award by Howard Whitmore, Jr., former mayor of Newton and a director of the Chamber of Commerce.

#### Green Light For Newton's Urban Survey

Mayor Gibbs is preparing to sign and forward to federal officials in New York a contract calling for a government grant of \$65,000 to cover two-thirds of the cost of a proposed \$97,700 community renewal study in Newton.

The Board of Aldermen on Monday night gave the green light to the execution of the contract.

Under the terms of the agreement Newton technically will pay one-third of the cost of the survey but actually will make its contribution mainly in the form of work done by municipal employees, including building, health and fire inspectors as well as police and workers in other city departments.

#### Cite Smoking In \$5,000 West Newton Blaze

Careless smoking has been blamed by fire officials for a fire early Saturday which caused an estimated \$5,000 damage in the cellar of the New England Window Conditioning Co., at 961-3 Watertown St., West Newton.

Officials said the blaze apparently started in a work bench and spread to the rafters and the smoke spread throughout the one-story brick and wood structure.

### POLITICAL HIGHLIGHTS

By JAMES G. COLBERT

#### Ex-Hub Mayor John B. Hynes Weighing Run For Governor

Former Boston Mayor John B. Hynes is seriously weighing the possibility of becoming a candidate for Governor.

A number of top Democratic leaders have quietly waited upon Hynes and urged that he step into the gubernatorial race.

They have promised him strong support at the Democratic State Convention in June if he does so.

Hynes, who has been practicing law since he retired from the office of Mayor a little more than two years ago, has appeared somewhat receptive to the suggestions that he return to the political wars.

He has not made his final decision on the matter, and he has not yet agreed to stand for the Governorship. Neither, however, has he rebuffed those who have approached him or rejected the idea of running.

Influential Democratic figures who have met with him during the past several days have come away with the impression that there is a good possibility he will enter the gubernatorial fight.

Should he do so, it could result in a chain reaction in the Democratic party.

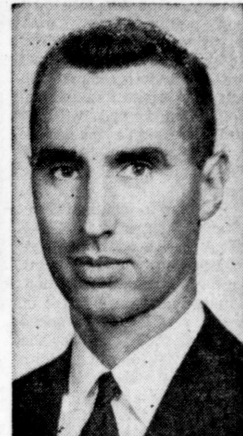

Hynes has been offered such powerful backing at the Democratic Convention that it might cause other gubernatorial candidates to revise their own plans if he accepts it.

"Alvin found it in the Want Ads—I think they belong to the same lodge!"

### Protest Meetings To Flare Anew Over Rezoning Plan

Neighborhood protest meetings have again been called by residents of Florence Street, Louise Road, Tanglewood Road, Craftsland Road and Dudley Street, to fight a new petition for rezoning a 692,000 square foot tract of land adjacent to the Sidney Hill Country Club, partially fronting on Florence Street, from private residence district to apartment house and apartment hotel district.

Feeling expressed by the residents of the area concerned indicates a crowded hearing room in Newton City Hall on February 13 at 7:30 o'clock when the public hearing of the Planning Board and Board of Aldermen takes place.

Last year an application for rezoning a smaller area for a motel on the adjacent lot owned by Sidney Hill Country Club was defeated.

**CANDIDATE** — Comely Miss Beverly Smith of 26 Sewall street, Newton Centre, is a candidate for "Queen" of the University of Maine's annual Winter Carnival to be held February 16 and 17th. She is a zoology major at the university. The queen will be chosen by a vote of the university students.

### Changes Ahead For Classroom Methods Told By Dr. Brown

Newton's public school costs will double between 1960 and 1970, School Committee Chairman Haskell C. Freedman predicted Monday night in an address at exercises commemorating the 10th anniversary of the Bowen School in Newton Centre.

Enactment of an educational tax providing for an impost of from 1 to 2 per cent on certain consumer items was urged by Freedman to raise the funds necessary to meet rising school expenditures.

School Superintendent Charles E. Brown predicted some of the changes, advances and innovations in teaching and educational methods likely to occur during the decade ahead.

The 10th anniversary program was arranged by the Bowen School PTA headed by Daniel Gordon. Harold Goorvich served as program chairman and introduced the speakers.

School Committee Chairman Freedman, discussing the problem of financing education, told his listeners that about \$380 million will be expended for the operation of public schools in Massachusetts this year.

## Valentine Mail Lobby Boxes Set Up In Postoffice

With local Valentines now second to Christmas cards in volume, Postmaster Ephraim Martin states that it is a real problem to distribute this mail in addition to the regular daily mail load and complete delivery on time.

In an effort to remove these Valentines from the regular mail channels, local postoffices have set up special boxes in their lobby or the exclusive deposit of Valentines intended for delivery in the community. "These neighborhood cards represent the major part of the Valentine volume. They can be cancelled and sorted by the carriers with a minimum of re-handling," said the postmaster.

Because of the many sizes of Valentines and the generally poor quality of envelopes the task of mail handling is even more difficult. Extra special delivery carriers will be assigned to meet the demands occasioned by the flowers, candy and other articles for delivery on February 14th. Air parcel post is recommended for distant parcels.

As one postal official said, "If you want to win the heart of the postoffice take local Valentines to the postoffice for deposit in the special Valentine box in the lobby."

One of the first steps which will be taken in launching the survey will be to enlarge the city planning and consultant's office in the basement of City Hall.

## Hospital Announces Two Changes In Visiting Hours

Two changes in visiting hours were put into effect at Newton-Wellesley Hospital during the past week, it was announced today by William S. Brines, director.

"Afternoon visiting hours in the Maternity Department will begin one-half hour later than previously," Mr. Brines said. "In addition, we hope to permit parents, on occasion, to stay longer with child patients in the Children's Department when circumstances are desirable."

Under the new schedule, maternity patients can be visited from 4 to 5 p. m. Formerly, afternoon visiting was from 3:30 to 4:30 p. m. The evening hours in the Ma-

ternity Department — 7:30 to 8:30 p. m. — remain unchanged, as does the morning visiting hour for husbands from 8 until 9 a. m.

The reason for the change, Mr. Brines explained, was to permit a longer rest period for new mothers. Caring for newborn infants and attending to personal needs has caused an increasingly heavy schedule for maternity patients. By adjusting afternoon visiting, a full-hour rest period can be added to a mother's hospital routine.

"In the Children's Department," Mr. Brines said, "members of the Medical Staff and nurses are well aware of the benefits that result from hav-

ing mothers near their children. To the end that such a step enhances recovery, the hospital wants to do all within reason."

Visiting policies of the hospital are established following a careful review of hospital procedures by supervisory personnel and physicians, and after a thorough study of comments by former patients. The hospital sends questionnaires to discharged patients selected at random, and asks such persons to evaluate their stay and to rate various aspects of care. Changes in Maternity and Pediatric visiting largely reflect suggestions made by former patients.

Mr. Brines also mentioned

that patients in the hospital are permitted two visitors at one time. When two people visit briefly, and appear at reasonably spaced intervals, there is less danger of the patient tiring, which in itself impedes recovery.

"We encourage visiting," Mr. Brines said, "so long as it is good visiting with constructive effects for the patient."

## Kindergarten Tests For Young Newton Tots

Dr. Edward Landy, assistant superintendent, announces that Newton public schools will continue to admit selected children to kindergarten three months younger than the standard admission age.

Children as young as four years, five months by Sept. 1 may be admitted if they pass a screening test. Parents may obtain application blanks from the elementary school district in which they live. Then they will be notified of an appointment time when they are to bring the children for appraisal.

## Political Highlights

## Republican Herter Might End Democratic Senate Conflict

Ex-Governor and former Secretary of State Christian A. Herter could stop some of the expected strife and turmoil in the Democratic party even though he is a Republican and is totally unconcerned about the battles the Democrats wage among themselves.

A lot of the zeal and eagerness of the potential contenders for the Democratic nomination for the U. S. Senate might wane quickly if Herter should yield to the movement to draft him as a GOP candidate for the Senate.

Herter's background as Secretary of State, Governor and Congressman would make him so attractive a candidate that the Democratic endorsement would lose some of its appeal if the person who won it were to run against him.

That Herter will consent to run for the office is extremely doubtful but is, nevertheless, within the realm of political possibility if the move to draft him becomes strong enough.

If he were interested in standing for election to the Senate, it is likely he would have made it known before this since he presumably could have had the Republican nomination for the asking.

The fact that he has made no overtures in that direction probably means that he is not planning to return to the political wars.

Most political observers expected that Christian A. Herter, Jr., would be a candidate for state-wide office in next November's election. But he has taken a business position in New York and is no longer a resident of the State.

It would be somewhat ironic if the senior Herter, who has never lost an election, should suddenly loom up large in the Bay State's political picture.

Governor Volpe, who served as Public Works Commissioner under Herter when the latter was the State's chief executive, unquestionably would be delighted to have his old boss as his running mate at the head of the GOP ticket next fall.

Whether Volpe will join in the endeavor to persuade Herter to run is something that remains to be determined.

## John McCormack Makes Critics Look Foolish

John W. McCormack has done a masterful job since his election as Speaker of the national House of Representatives.

He has made his critics and hecklers swallow their words. And he has proved President Kennedy's staunchest and most effective ally on Washington's Capitol Hill.

That is not surprising because McCormack was quietly running the House last year when the late Sam Rayburn was Speaker in name but was in poor health and too ill to carry the tremendous burden of his duties.

A glittering example of McCormack's work was the manner in which he got Kennedy's bill to increase postal rates through the House.

That wasn't as easy or simple a task as it appeared from the way McCormack handled it. There was tremendous opposition to the measure. A boost in postal rates is not a popular move, and it is not an expedient one in an election year.

But McCormack got the bill through the House with astonishing dispatch in the first big accomplishment of his rule as Speaker.

That answered the questions of those who have been asking how he would work with President Kennedy.

## Politicos Jittery Over Congress Road Probe

Leaders in both political parties are jittery over the public reaction to the congressional investigation now being conducted in Washington into alleged shenanigans in connections with land-takings by the State public works department as part of its federally financed highway construction program.

The transactions being probed occurred during the administration of ex-Governor Foster Furcolo.

But at least two of the principal figures involved in the investigations were holdovers from the Herter regime when Governor Volpe was head of the DPW.

The hearings came as a climax to an investigation which has been in progress for more than a year. The revelations which will come out during the congressional proceedings are certain to startle an already shell-shocked public.

What some observers can't figure out is why Massachusetts was one of the first States singled out for a congressional investigation.

Insiders on Washington's Capitol Hill report that similar land-taking scandals have cropped up in every State in the Union with the sole exception of California.

West Virginia is the next State on which the spotlight of national attention will be focused after the hearings have been concluded on the alleged skulduggery relating to the purchases of property made to clear the way for the building of new roads in Massachusetts.

Other States will have their turn to be held up to public ridicule and disgrace—if the members of the investigating Blatnik committee live long enough to get around to all of them.

Meanwhile, Massachusetts is being pictured from one end of the land to the other as a State ridden by corruption.

## OUR READERS SAY

### Extend United Fund

To the Editor:  
Newton Graphic:

Some time ago I participated in a door-to-door appeal for one of the Medical drives. Like many women I have done this often, but this time I was impressed or perhaps depressed with the number of people who refused to contribute though acknowledging the worthwhile aims of the appeal. The area I covered was comparatively small but I do think it reflects the increasing annoyance people feel at the numerous public appeals particularly since the concept of the United Fund has proved the benefits of unified action and planning in supporting community projects.

There would appear to be two alternatives to choose from in meeting this problem: 1. The United Fund should extend its scope to include all the Medical appeals.

2. A general Medical Fund should be established including all the organizations, and conduct one annual solicitation.

Either plan would insure obvious large economies in organizational expenditures such as staff, printed and promotional materials, and avoid the waste of manpower involved in so many separate solicitations.

Most people want to support medical research and assistance. I believe that individuals would not only give but give more generously if they knew that one contribution covered multiple needs and was collected and expended efficiently and effectively.

Sincerely,  
Gertrude W. Scheft,  
Mrs. William Scheft  
101 Exeter Street  
West Newton, Mass.

## Annual Dinner-

(Continued from Page 1)  
SENATOR POINTS TO CAREER START HERE

Saltonstall pointed to his debut as a public servant in the ranks of aldermen in Newton and reminded his listeners that his first successful undertaking in public life was to arrange for the installation of cement sidewalks on Hammond street, a project still enjoyed on the street.

He gave a comprehensive picture of the national and international scene and problems of today, with special reference to the United Nations, European Common Market and Reciprocal Trade treaties, and the trouble spots of Laos, Berlin, Africa, the Congo, and the Near East. He spoke strongly in favor of support of the United Nations as an "instrument for peace in the world and a forum where representatives of all countries can discuss their problems equitably, realistically and with the hope of obtaining understanding without use of arms."

He said that the "United States must have a strong foreign policy of its own, but it can work to conduct that policy with the assistance of the UN."

Congressman Laurence Curtis introduced the guest speaker, Admiral Rickover, noted the world over as the "Father of the Atomic Submarine." The Massachusetts Republican reminded his listeners of the honor the words carried. "How vast is the debt and gratitude owed to the man who unquestionably deserves that title," Congressman Curtis exclaimed in introducing the speaker.

"It is good for us in Massachusetts to hear of his (Admiral Rickover's) long record of honorable and unselfish service. It serves as an antidote to the poison of official corruption about which we are ashamed to read in our daily papers," Curtis said.

OUR EDUCATIONAL SYSTEM UNSATISFACTORY

Admiral Rickover reminded his listeners that in today's contest between free and unfree societies, education has assumed great importance.

"It has for some time been evident to every thoughtful American in education our competitive position vis-a-vis Russia, and other advanced countries is unsatisfactory," he said.

He pointed out the fallacy of deducing superiority over others on the basis of wealth alone. These ideas can be dangerous if we persist in them, he warned. He challenged our claims for greatness and welfare being proved by our being so very rich.

Admiral Rickover stated that until the Russian Sputnik shook our complacency we fondly believed that making of first-class men was the object of our costly school system and that, except for a

few critics, most Americans no doubt felt that "ours were the best schools in the world." He remarked that most Americans have now shed that illusion.

He charged that educational officialdom in this country imperiously cast out seven hundred years of educational experience which countries of Western civilization had laboriously developed, in favor of trying out an indigenous theory of progressive education running counter to every proven and sound concept of what a school can and should do.

Rickover also pointed to the shorter school year in the United States which contains only about two-thirds of the class time of a school year abroad, he said.

"Moreover," remarked the admiral, "the much higher professional qualifications of European teachers, the better planned curricula, the greater emphasis on homework make it evident that twelve American school years give a child no more formal schooling — often less — than eight years abroad."

The high costs of education in this country as compared with overseas also came in for remarks by the speaker. "Schools that provide life — or group — adjustment instead of genuine education, people and institutions who attempt to degrade free, self-determining citizens into conforming 'organization men' and vilify critics of the status quo — whether they know it or not, they all are busily at work eroding the very foundations of our free society," warned Admiral Rickover in concluding his remarks.

DISTINGUISHED ROSTER OF HEAD TABLE GUESTS

Head table guests at the dinner, in addition to Senator Saltonstall and Admiral Rickover, included Governor John A. Volpe, Congressman Laurence Curtis, Mayor Donald L. Gibbs, Rear Admiral Chester L. Harding, commander, First Coast Guard District; Rear Admiral Carl F. Espe, commandant, First Naval District; Neil E. Harlan, assistant Secretary of the Air Force; the Very Rev. Michael P. Walsh, S.J., president of Boston College; Major General Kenneth P. Bergquist, commander, Laurence G. Hanscom Field.

Also Colonel James B. Glennon, commanding officer, U.S. Marine Barracks, Boston; T. Frank Copp, 1962 president, Newton Chamber of Commerce; Grenfell A. Swim, 1961 president, Newton Chamber of Commerce; Kenneth W. Rogers, treasurer, Chamber of Commerce; David W. Stapleton, second vice president of Chamber; Justin T. Horan, executive director; Howard Whitmore Jr., director of Chamber; and Rev. W. Seavey Joyce, S.J., dean of the School of Business Administration of Boston College, who gave the invocation and benediction.

## City Planning, Urban Renewal To Be Probed By Women Voters

What can city planning do for Newton? Do we need urban renewal? This year the Zoning Resource Committee of the Newton League of Women Voters has been exploring the planning problems confronting Newton, and some possible solutions.

Last year this committee studied zoning principles and practices as they relate to the future growth and development of Newton. This work pointed up the need for more complete planning studies and stricter enforcement of the present zoning laws. Much of this will be accomplished under the grant for a Community Renewal Program.

The Newton League of Women Voters will hold discussion units next week at which the focus of attention will be on the background, administration, and objectives of Urban Renewal and what it means to Newton. How will it affect the community with

respect to regional planning? What open spaces are there in the city and what will happen to them?

The units will discuss also some immediate goals of the Community Renewal Program and some long-range goals. Another question of importance that will be raised concerns the cost and method of payment for this program. Newton's planning needs and what they mean to the individual citizen will come under close scrutiny at the league units next week. Interested women in the community as well as league members are welcome to attend.

The units will be held as follows: Tuesday, Feb. 13, 9:45 a.m., Newton Lower Falls, at the home of Mrs. Joel Leighton, 31 Colgate Rd.; Tuesday, Feb. 13, 7:45 p.m., Newton Centre, at the home of Mrs. Herbert Nachman, 87 Harwich Rd.

Wednesday, Feb. 14, 9:45

a.m., Newtonville, at the Newtonville Library, 345 Walnut St., (please use Highland Ave. entrance), hostess Mrs. David White; Wednesday, Feb. 14, 9:45 a.m., Newton Highlands, at the home of Mrs. George Rubin, 40 Druid Hill Rd.; Wednesday, Feb. 14, 7:45 p.m., Newton Centre, at the home of Mrs. Daniel Bernstein, 22 Hobart Road;

Thursday, Feb. 15, 9:45 a.m., Newton Highlands, at the Newton Highlands Workshop, 72 Columbus St., hostess Mrs. John Locke; Thursday, Feb. 15, 9:45 a.m., West Newton, at the home of Mrs. Leston Havens, 22 Winthrop St.; Thursday, Feb. 15, 7:45 p.m., Waban, at the home of Mrs. Daniel Carmen, 103 Larchmont Ave.

"I have lived long, a long time, and the longer I live the more convincing proofs I see of the truth that God governs in the affairs of men."

DR. FRANK C. LAUBACH

## Noted World Traveler To Preach Here

Dr. Frank C. Laubach, internationally known as one of "the foremost teachers of our times" and called by Time Magazine the "world's literacy missionary," will be the guest preacher at the Newton Highlands Congregational Church, next Sunday, February 11, at 10:45 o'clock.

Dr. Laubach, now 77, has over 30 years of unparalleled achievement around the globe, teaching the hungry, destitute and diseased, illiterate masses to help themselves, through literacy.

He recently returned from the latest of his famed world-literacy tours. His simple people-to-people plan for world peace has already set in motion a continent-wide movement that has assumed the proportions of a new Crusade. In Look Magazine, Dr. Norman Vincent Peale named Frank Laubach among the five greatest personages of the 20th Century.

He is regarded as the most-traveled man on our planet and has worked with educators, government officials, private welfare agencies and missionaries, in 101 countries and in over 300 languages and dialects, perfecting simple lessons to teach adults to read easily.

His talk at the Newton Highlands Congregational Church will be a vital one. Those attending will be given the opportunity of meeting Dr. Laubach at a coffee and social hour following the service Sunday morning.

## Fine Arts Day Theme Of West Newton Meeting

"Fine Arts Day" will be the theme of the February meeting of the West Newton Women's Educational Club to be held at the Second Church, West Newton, tomorrow, Friday the 9th.

Hostesses for the dessert and social hour at 1 o'clock will be Mrs. Thomas L. Matthews and Mrs. Leo F. Stankard.

Mrs. Donald Moody, president, will conduct the business meeting which will be followed by the social hour.

Mrs. Charles E. Shepard, president of the Massachusetts State Federation of Women's Clubs, will be the guest of the day and will bring news and greetings of the federation.

A display of old books will be a feature of the program; a program of interesting reviews of the latest books will be presented by Mrs. Myrtle Strong Allen.

# School Costs To Double By 1970

(Continued from Page 1)

## High Costs Of Education Told

Of that amount, Freedman said, about \$70 million will be provided by the State and from \$10 to \$12 million by the federal government, leaving approximately \$300 million which must be paid by the various cities and towns.

The principal source the local communities have for obtaining the money needed for school purposes is from their tax on real estate which already is too high, Freedman pointed out.

He declared that resistance is growing to boosting tax rates and that the problem of where to get the money to finance public school education is a major one.

Freedman offered a two-point solution to the problem.

1. He proposed an educational tax of 1 1/2 or 2 percent on certain limited consumer items, with the proceeds from the tax to be allocated specifically for education.

2. He maintained that the federal government should aid education at the local level to a greater extent by giving money to the States for distribution to local communities without federal controls.

Freedman told the Bowen School PTA members that if they want to continue quality education in Newton they must be prepared to bear the cost of it if the State and national governments do not contribute additional funds.

The School Committee headed that school costs in Newton more than doubled between 1950 and 1960. He said about the same thing must be expected during the present decade.

An increased number of children, mounting costs and competition for the better teachers were among the reasons

given by Freedman for the expected jump in school expenses.

## Teachers' Pay Not High By Standards

He predicted that educational salaries will continue to rise and observed that the pay of teachers is not high by standards in other industries.

Superintendent Brown held close interest of his audience as he told them of the kind of schools and classes their sons and daughters will attend in the years just ahead.

"We probably will see a movement away from the motion that a curriculum is developed on a grade concept, namely that certain things are done in a certain grade," Dr. Brown declared.

The new theory, he said, will be that things are developed on a kindergarten-through-12th grade concept.

The importance of grade lines will gradually disappear, he prophesied.

He forecast a move from the present standard-size school classes to pupil groupings which will vary in size, with some things done in large groups or classes and others in small groups.

At the present time children are more or less grouped by chronological age, Dr. Brown stated, adding that coming developments in the field of education will see greater variations in the ages of children assembled in the same classroom.

"We will find boys and girls working with older or younger children rather than just with pupils of their own age," he predicted.

A trend toward the theory of team teaching was forecast by Dr. Brown. He foresees two or more teachers working in the same classroom with larger groups of pupils.

This probably will mean a school staff of both professionals and non-profession-

als, in the opinion of Dr. Brown.

He expressed the belief that the less highly trained non-professionals will assume some of the chores which now take up a good part of a teacher's time.

For example, he explained after the meeting, the non-professional assistant might do clerical work, collect the milk money, help children on and off with their coats or overshoes and discharge similar tasks.

We may see a day in the not-too-distant future in the Newton public schools when not all pupils will arrive at the same time, leave at the same time or devote the same amount of time to their studies, according to Dr. Brown.

Some pupils will have a longer school day than others, the exact length of the school day varying in accordance with the needs, interest and ability of the individual child, he said.

## Trend Will Veer Toward Modernity

The Newton superintendent predicted a movement toward modern mathematics, which places greater emphasis on an understanding of a relationship between numbers and mathematical concepts rather than on the memorization of rules.

He sees less importance being placed on foreign languages in the elementary grades and a trend toward a strong six-year sequence of foreign languages starting in the 7th grade.

Dr. Brown told his listeners that the temptation to narrow the school curriculum in the direction of mathematics and science should be resisted.

"We should retain a balanced curriculum to find room for the humanities art and music and to provide course offerings which make sense to all children wherever they happen to fall on the ability scale," he declared.

Monday night's program climaxed the Bowen School's 10th birthday celebration.

Pupils of the school participated in exercises last Friday and shared a big birthday cake.

On Monday night the Bowen PTA board, faculty and past presidents of the PTA were served a catered dinner in the school gymnasium.

All Bowen PTA members were invited to hear Dr. Brown and Chairman Freedman. A reception followed the speaking program.

Edward M. Clarke, Bowen's principal, and Mrs. Theonista MacDonald, the school secretary, have served in those capacities since the school opened its doors in February, 1952.

A huge birthday cake was cut by Mr. Clarke and Mrs. Joseph DiCarlo, former PTA member. Cake and coffee were served to all present.

Milton Levy, past president of the Bowen PTA, acted as master of ceremonies and introduced the special guests, Mrs. Samuel Citron and Mrs. Isabel Carson, vice-presidents of the Bowen PTA, served as hostesses.

## Admitted To Sorority

Marion Hockridge, daughter of Mr. and Mrs. C. M. Hockridge of 32 Dunklee st., Newton Highlands, was recently initiated into the Eta chapter of Phi Phi Alpha, a national panhellenic sorority, at Boston University. Marion graduated from Newton High School and is presently majoring in accounting at the B. U. College of Business Administration.

## Newton Man Recipient Of Dartmouth Alumni Award

Joshua B. Clark of West Newton was honored last week by the Dartmouth College alumni, Class of 1911, for distinguished achievement and service to his college.

Mr. Clark received the alumni award at a Boston Alumni Association dinner held in Boston last Thursday.

February 1. He is general agent-emeritus of the State Mutual Life Assurance Company.

He received a citation and replica of the Wentworth Bowl, presented to Dartmouth's founder, Eleazer Wheelock, by John Wentworth, then Governor of the Province of New Hampshire, at the college's first commencement in 1771.

The citation, in part, extols the West Newton man as a "guardian and tireless promoter of the Dartmouth Educational Association" and credits him with single-handedly raising the membership of the association from less than 200 to more than 1200 persons.

Mr. Clark has been secretary of the Class of 1911 and secretary of the Boston Alumni Association. He also has two sons, both Dartmouth graduates, members of the Classes of 1943 and 1947.

## Lasell College Girls Off For N.H. Week-end

Students of Lasell Junior College in Newton leave the campus today at 5 o'clock by bus for their annual winter sports week-end in North Conway, N.H.

The traditional week-end has been observed at the local college since 1899 as a period of relaxation following semester exams.

Miss Muriel R. McClelland, assistant dean and director of physical education, and Miss Ann Dolve, physical education instructor, are accompanying the group.

## Meeting Of PTA Council Held Feb. 1

A PTA Council meeting with Jerome Grossman presiding was held on Thursday evening, February 1, at the Old Pierce School on Chestnut street, West Newton. Among those attending were Dr. Charles E. Brown, superintendent of schools and Manuel Beckwith, school committeeman from Ward 4.

Daniel Shore, chairman of the Legislation Committee reported on several bills on education currently being heard in the House of Representatives, and in the State Senate. Among these, House Bill 513, introduced by the Eastern Taxpayers Association would require that no annual school budget exceed by more than 5% the budget of the preceding year, unless authorized by two-thirds of the aldermen, city council, or town meeting members. Since this bill would limit the fiscal independence of school committees, it was strongly opposed by the Newton PTA Council.

The Council voted to send a letter to the committee of the Massachusetts General Court hearing the bill stating that the Newton Council favors the fiscal independence of school committees, and is therefore opposed to this bill.

A compilation of scholarships available to Newton college-bound high schoolers will be published by the Newton School Department this year. Under the chairmanship of Mrs. Irving Gelman, eleven women have been working since November gathering this information. They have discovered that such a summary of scholarship aid had never been compiled before in any other city or town. The pamphlet will be published to include the requirements for various scholarships, directions on how to apply, and the course an application takes. While the emphasis will be on local scholarships, the bulletin will include also a bibliography of other compilations, such as federal and state scholarships.

A liaison person will be appointed to the library committee of the Newton League of Women Voters pressuring for improved library service in Newton.

A report was given by Robert Ward about the school committee meeting at which an illustrated report was given on the changes in the teaching of mathematics in the Newton Schools.

## Water Safety Classes Will Open Feb. 15

Gilbert J. Champagne, chairman of safety services for Newton Chapter, American Red Cross, announced this

week the start of a course in water safety instruction to begin next Thursday, February 15th at the Sidney Hill Country Club, Florence street, Chestnut Hill.

### Auto Levy

Albany — The first of the states to levy a registration fee upon automobiles was New York which imposed the tax in 1901.

### Federal Wards

Washington — About 430,000 American Indians and Eskimos are legally the wards of the United States government.

Mr. and Mrs. Norbert J. O'Keefe of Wellesley Hills and Mr. and Mrs. John W. Ryan of 22 Hogan road, Newton Centre, are the couple's parents.

The Rev. Philip E. Dion, uncle of the bridegroom, was celebrant of the 10 o'clock nuptial mass and read the Papal Blessing. The Chestnut Hills Country Club was the setting for the reception.

Given away by her father, the bride's bouffant skirted gown of ivory peau de soie had a scoop neckline and long sleeves, entraine. A crown of pearls and orange blossoms held her illusion veil in place. She carried a bouquet of ivory-colored roses and lilies of the valley.

The matron of honor, Mrs. Thomas A. O'Neill of Natick, is the bride's sister. Miss Rosalind Ryan of Newton Centre, sister of the bridegroom, and Miss Anne C. Driscoll of Newton Falls were her other attendants.

The best man was John F. Ryan of Newton Centre, brother of the bridegroom. Ushering were John Boyle of Worcester and Kevin O'Keefe of Wellesley Hills, brother of the bride.

The bride accented her attractive Navy blue wool going-away ensemble with white.

Now honeymooning in New Hampshire, Mr. Ryan and his bride will live in Wellesley Hills.

Mrs. Ryan attended Sacred Heart School in Newton Centre and the Catherine Labour School of Nursing.

Her husband, a student at Northeastern University expects to be graduated in June.

## Art Association Meets Feb. 15th

The Newton Art Association will hold a self-criticism night on February 15th at the Beethoven School, 7:30 o'clock. In the past these particular meetings have aroused much interest as all members can bring their varied works and afford themselves the knowledge of professionals in this group. Guests are welcome for a small fee.

On February 1st, James Price, the evening's artist, introduced a new painting medium called CresTone. It is a water soluble mixture and simple to use.

Valentine's Day has become a pleasant occasion for cashing in on cards or candy. But for the maids of an earlier day, it was a time for serious husband-hunting.

According to historians, a girl might start out at midnight by circling the church 12 times and repeating the rhyme, "I sow hempseed, hempseed I sow, he that loves me best, come after me now." If no one did, she could still hope to see her true valentine in her dreams. Of course, she first took the precaution of pinning five bay leaves to her pillow, one to each corner and one in the center.

Was marriage possible in the coming year? A peek through a keyhole could tell her that. The girl rose early on Feb. 14 and set her eye to her keyhole. If she saw two objects, well and good. But if only one—better luck next year.

Still, perhaps she could identify her husband-to-be. She wrote the names of her boy friends on bits of paper and rolled each one in a piece of clay. Then she dropped the clay into water. The first scrap of paper that floated to the top was believed to hold the name of her valentine.

If she already had a favorite, she might test him by folding her forehead with a striped rose petal. If the petal cracked, obviously he loved her.

## Music School Announces New Adult Course

A new course for adults dealing with all aspects of music and musicianship will be offered at the All Newton Music School next semester. Classes will meet Monday evenings from 8:00 until 9:30. The first meeting was held February 5.

The course will concern itself with the widest range of musical interests but will devote special attention to the problems of the amateur singer in church choirs, choral societies, glee clubs and the like. Amateur instrumentalists and those who play no instrument will find equally valuable stimulation and value in the course.

The course will be conducted by Alfred Hoose of the All Newton Music School faculty. As a composer, conductor, organist, music director of Newton Junior College, first director of the Bourne Community Chorus, lecturer and teacher, Mr. Hoose is particularly well qualified to lead this new activity of the school, located at 340 Walnut street, Newtonville.

## Newton High On Verge Of GBI 1961-62 Hockey Crown

Newton High's smoothly-clicking hockey team can win or at least make certain a tie for the GBI crown when they skate against fourth-place Medford in the 12th round at Boston Arena next Saturday.

Newton all but put the title on ice last Saturday with a 4-0 triumph over Waltham, thanks to the two-goal performance of juniors Don Neilson and Terry MacLaughlin.

Cambridge Latin eked out a 2-2 tie with Brookline to keep them in the running; Arlington smothered Rindge Tech 6-1 to tie Cambridge Latin — six points behind Newton; while Medford squeezed by Somerville 2-1 in other 11th round action.

Neilson and MacLaughlin were the heroes of the Newton victory over Waltham as they collected two goals each while league-leading goalie Don Mason registered his fourth shut-out in a fairly easy performance.

Neilson scored in the first

period after taking a pass from Bill Cotter, the league's leading scorer, from 15 feet and registered again in the second period after another setup by Cotter. He was being double-teamed and this left Neilson free.

Steve Colpitts also had as-

ists on both Neilson goals.

MacLaughlin's two third period goals came within 18 seconds of each other. On the first he soloed the length of the ice to tally and on the second he took a pass from Neilson to wind up the scoring.

## Trackmen Get Tie For Sixth In State Meet

Newton High's indoor track team, a powerhouse in dual meets, finished in a tie for sixth place in the 45th annual State Indoor Schoolboy Track Championships held Saturday afternoon at Boston Garden.

"We didn't do well and we didn't do badly," commented Newton coach Ed Boyle.

"As I thought at the beginning of the season we are a dual meet team and not a big meet team. The outdoor season should tell a different story."

**NEWTONITES IN KEY POSTS**—Irving Schwartz, center, of 301 Waverly avenue, Newton, area Special Gifts chairman, for \$7,550,000 Tufts University Program, and two key workers, also from Newton, check results as target date for special gifts solicitations was reached February 1. At left is Herbert Kotzen of 45 Fenwick Road, Newton, and at right James Shulman of 31 Marcellus Drive, Newton. All are graduates of Tufts College. Funds will aid several important projects at the university including research, new facilities scholarship aid.

## Newton PTA Favors School Fiscal Freedom

The Newton PTA Council has notified the Massachusetts legislature that it opposes House Bill No. 513 which would limit the financial independence of school committees in the Commonwealth.

Under terms of the bill, introduced by the Eastern Taxpayers Association, no annual school budget could exceed by more than five per cent the budget of the preceding year unless authorized by two-thirds vote of the aldermen, city council or town meeting.

The Newton PTA Council voted to notify the legislative committee hearing the bill that it favored fiscal independence for school committees.

Meanwhile, announcement was made that eleven women have been working since last November under the chairmanship of Mrs. Irving Galtman in compiling all scholarships available to Newton-bound high school students.

Such a list has never been compiled and it will be published by the Newton School Department this year.

## 20 Applicants Seek Berth Of Grid Coach

Approximately 20 high school and college freshmen football coaches have applied for the job as head football coach at Newton High School.

Their applications are now being screened, but no decision or choice among them has yet been made.

Superintendent of Schools Charles E. Brown explained that in screening the applicants the first consideration must be to pick a teacher who also can coach.

He indicated that the coaching ability of the applicants is secondary to their teaching ability.

Dr. Brown also pointed out that a teacher-coach must be selected who can fill a teaching vacancy in the Newton High faculty.

A teacher-coach is paid primarily as a teacher at Newton High and receives only a comparatively modest amount for his football coaching services.

A teacher-coach, for example, is paid from \$875 to \$1100 a year for coaching the football team, the balance of his income coming from his salary as a teacher.

However, a teacher at Newton High is allowed to coach two sports so that a football coach might pick up an extra stipend as an assistant coach of one of the other sports.

## Tufts Committee In Final Drive

Irving Schwartz of Newton and James Cohen of Brookline are spearheading the Special Gifts Committee in the Boston, Brookline, Newton and Wellesley areas for the Tufts University program.

It is a national effort to raise \$7,550,000 to increase scholarships and add new buildings.

The Special Gifts Committee includes: Leon Cohen, 198 Dedham street, Newton; Maurice Crevozhay, 41 Hamlin road, Newton; Philip Hamburg, 25 Huntington road, Newton; Herbert Kotzen, 45 Fenwick road, Waban and Robert Yanofsky, 81 Montrose street, Newton.

## Sacred Heart Quintet Wins; Tied for Lead

Sacred Heart High School's fine basketball team surged from behind to defeat Immaculate Conception of Revere 55-39 in a game played at the Weeks High gym Monday night.

The victory enabled the Sacred Heart basketball team to maintain a tie with St. Mary's of Cambridge for the top spot in the standings of the Catholic Suburban League. Each team has won 11 games and lost one.

Paul Kerns played a spectacular game to lead Sacred Heart to its triumph over Immaculate Conception. He tallied 25 points to rank as high scorer of the game and snared 25 rebounds off the backboards.

The early stages of the game indicated a runaway win for Immaculate.

Not only did the Revere quintet move into an early lead, but at the end of the first quarter they led the Newtonites by an 18-4 margin.

It wasn't until the second quarter that Sacred Heart paced by Kerns began to turn the game into a contest. The Newtonites overtook the Revere youths in the second period, but the latter than went in front again to lead 26 to 18 at half time.

In the final two periods, however, Sacred Heart turned on the steam, fighting its way into the lead in the third quarter and then opening a big advantage in the final quarter.

Co-Captains John Egan and Hugh Gallagher each chalked up 10 points, and Bob Anderson was outstanding on defense.

## MAYOR SUBMITS \$24-MILLION BUDGET

### Rise In Varied Municipal Costs Surmounts Official Cuts

#### Probable \$3 Boost In City's Tax Rate Seen

Mayor Donald L. Gibbs this week submitted a proposed \$24,374,423 budget to the Board of Aldermen to finance the operation of the municipal government and the school department during 1962.

The budget is \$841,394 higher than the one presented to the Aldermen by the Mayor a year ago.

This probably forecasts a tax rate increase of about \$3 although some of the factors which will play a part in determining the rate are not yet known.

The Aldermen also will endeavor to trim down the budget, but Mayor Gibbs already has slashed it so drastically that he left little room for further cutting by the city fathers.

Climbing school costs which neither the Mayor nor the Aldermen have any power to reduce account for the jump in the budget.

Mayor Gibbs in a communication to the Aldermen declared that the rising school expenditures are cause for serious and sober reflection by every member of municipal government and by our citizens.

Figures contained in the budget sent to the Aldermen by the Mayor showed that school allowances for this year went up \$839,012 over 1961 and that the expenses under the control of the Mayor increased \$2382.

The school budget for this year is \$9,971,541 as compared to \$9,132,529 last year.

The Mayor's budget, apart from schools, is \$14,402,882.48 as against \$14,400,499.84 a year ago.

However, the figures tell only a part of the story, according to Mayor Gibbs.

#### Newton Phi Beta Kappa Will Award Book Prize

A prize book with suitably inscribed book plate will be presented annually by Newton members of Phi Beta Kappa to one outstanding senior at Newton High School and to one at Newton South High School for the purpose of promoting among students a deepening respect for intellectual growth and satisfaction in the achievement of excellence, according to action taken at a meeting held here.

Phi Beta Kappa is a National Honorary Society, founded in 1776, with Chapters in 170 qualified liberal arts colleges. Members are elected on the basis of high scholastic performance.

For several years, the Phi Beta Kappa Association of Greater Boston has advocated the presentation of a prize book in each high school in the area, in recognition of superior scholastic achievement. Evidence that Newton is well equipped to follow this suggestion is shown by the fact

that the office of the United Chapters of Phi Beta Kappa lists over 500 members now residing in Newton.

Discussion of the plan started at a meeting at the Newton High School on May 18, 1961 to which the 511 Newton Phi Beta Kappas were invited by Mrs. H. B. Ulljan, a member of the Greater Boston Association and a former president of the Radcliffe College Chapter.

Over one hundred attended this meeting and a goodly

#### 13th Seat May Not Solve Congress Redistrict Issue

Amid the furor caused by the congressional investigation into the State Public Works Department land-taking scandal and the ouster charges against Boston Police Commissioner Leo J. Sullivan, the problem of dividing Massachusetts into new congressional districts has been pushed into the background.

Reports from Washington indicate the passage of a bill which will increase the membership of the national House of Representatives and give this State 13 seats in the next Congress instead of the 12 it otherwise would have.

With powerful Speaker John W. McCormack quietly but effectively masterminding a guiding the course of the measure, the prospect of its adoption are excellent.

Some political observers have jumped to the conclusion that this will break the stalemate between Republican Governor Volpe and the Democratic Legislature and that a redistricting plan will be worked out which will go sailing through the Legislature and onto the Governor's desk.

They expect that the district of Congressman Laurence Curtis, who is standing for the Republican nomination for the U. S. Senate, will be broken up.

#### Local School Officials Will Go To Nigeria

Two Newton school officials — Principal Donald K. Davidson of Newton South High School and Assistant Principal Joseph Slyva of the Weeks Junior High School — have been granted a month's leave of absence to assist in making a survey to determine the type of school which will be erected in Nigeria near Lagos.

They will be accompanied to Nigeria by Dean Judson of the Harvard Graduate School of Education. Their survey will be a comprehensive one aimed at determining the type of school which should be erected and the kind of facilities it should have.

Dr. Davidson and Mr. Slyva will be absent from their school duties from February 23 to March 24. Their salaries for that period will be paid by the Harvard School of Education.

A number of Newton teachers will staff the school after it is opened.

## \$245 Raised By Students Helps Channel 2 Fund

A financial drive held recently by the Associates Council of the Newton South High School was completed to raise funds for WGBH Channel 2. It was announced that the fund had reached the total of \$245, which was sent to the educational television station to aid in its restoration after the disastrous fire of last October.

The fund was built by generous donations by both faculty and students at the high school. The Associates Council launched the drive with a donation of fifty dollars from its own treasury; contributions from individuals and clubs made up the balance.

Carl Warsow, treasurer of the Associates Council, and Gail Moseon were co-chairmen of the committee of students which planned and conducted the fund raising campaign.

## Year End Appeal Brings Hospital Nearly \$27,500

Community residents have given nearly \$27,500 to the 1961 Year-End Appeal of Newton-Wellesley Hospital, it was announced today by William S. Brines, director of the hospital.

"We will make a report to the United Fund in a few weeks," he said, "about final results of the mail solicitation. Funds that are voluntarily given are used for new equipment and for renovations in the hospital."

According to Mr. Brines, the board of governors of the hospital will determine how the funds will be used. Several pressing needs are under consideration, he indicated, and a final decision will be made soon after results of the Appeal are known.

In recent years, donations have financed the modernization of patient units, "hi-lo" electric beds, and a new elevator.

SYZMON GOLDBERG

## Noted Violinist Gives Concert Here Feb. 20th

Syzmon Goldberg, noted Polish violinist, now in the midst of his ninth extensive American tour, will appear in Newton on Tuesday, February 20th at 8 p.m. in the Newton High School auditorium under the auspices of the Newton Community Concerts.

In addition to his international reputation as a top concert musician, Syzmon Goldberg is the hero of a bizarre and distressing experience during World War II.

He was taken prisoner by the Japanese in Java where he was performing during the course of a world tour. With his wife he was thrown into prison and during the next three years was moved to fourteen different concentration camps as the war map changed.

For all but five months of this time, he and his wife were separated. And during this time, Mrs. Goldberg concealed her husband's rare Stradivarius violin from their captors.

The gifted musician made his American debut in 1948 as a soloist with the New York Philharmonic Orchestra. He repeated this success in other large American cities and has firmly established himself as a concert and recital favorite.

tion should be successful, they would then have an opportunity to support a graduated income tax on the state level. Mrs. Myron Simon served as discussion leader for this group. Mrs. John Locke was League resource person, and Mrs. Mark Gordon was the recorder.

At the workshop on Correction and Civil Service, Senator Leslie B. Cutler of Newton reported with regret the failure to pass of a bill which she initiated and the League supported. The bill would have provided that, with certain exceptions, prisoners serving life sentences would be eligible for parole after fifteen years. The minimum at present is twenty years.

Rep. Sumner Kaplan of Brookline expressed approval of the establishment of a detention center in Essex County under the Youth Service Board, on which the League has not taken any stand. He questions, however, whether funds will be appropriated by the legislature.

As part of the discussion on Civil Service, which the league is in the process of studying, Rep. Kaplan suggested that legislators be asked to serve on committees meeting to formulate actual bills. The discussion leader of this group was Mrs. Proctor Houghton; the League resource people were Mrs. Arnold Mork and Mrs. Lester Radlo. The recorder was Mrs. George Baker.

At the workshop on Structure of Government, Consti-

tutional Reform, and Regional Planning, Rep. John Whittemore of Newton, Rep. George Rawson of Newton, and Rep. Freda Koplow of Brookline, expressed support and expected passage of the four year term for governor to be elected in the non-national election year.

The League is in the process of studying constitutional revision. Rep. Whittemore favors the league study before taking a stand on the matter. He prefers the legislative method. Rep. George Rawson also favors the legislative method for constitutional amendment and disagrees with any change in the first part of the Constitution which gives the basic rights. Rep. Koplow has taken a stand opposing a Constitutional convention and favors a

## Political Highlights

(Continued from Page 1)

divided among several other districts and that everybody will be happy except possibly some of the people in the Curtis district.

But it isn't quite that simple. And there is no guarantee that a redistricting law will be enacted even though the Bay State's quota of seats in the National House is boosted from 12 to 13 through Speaker McCormack's efforts.

In the first place, drafting a redistricting bill acceptable to a majority of the members of the Legislature is much more difficult than most persons realize.

Secondly, some Democratic legislators probably will insist on obtaining a few advantages for their party or protecting certain individuals in it.

Thirdly, Governor Volpe probably will not sign into law a redistricting bill which does not give the GOP an even break.

Fourth, Democratic leaders on Beacon Hill undoubtedly will try to outmaneuver Volpe on the redistricting issue.

Fifth, there is considerable doubt that certain influential Democratic chieftains, who might win election to Congress in a state-wide fight, really want to see any redistricting law enacted.

Unless the Legislature is going to adopt an obvious Gerrymander bill, it will be obliged to make some changes in practically all the congressional districts in the State.

They can't simply take the Curtis district, chop it up into pieces and add those fragments to the districts of Speaker McCormack, Congressman Thomas P. O'Neill, Jr., James A. Burke and Joseph W. Martin, Jr.

If they do, some districts are going to be substantially larger than others and the requirements of the law will not actually be met.

It's also questionable that Volpe would view with much enthusiasm a plan which forces his political party to absorb the loss of a seat in Congress under such circumstances.

Volpe has indicated he would expect the Democrats and Republicans each to give up one seat and that a new fighting district would be created which each party would have an even chance to carry. The Democrats are not likely to go for that idea.

Democratic Congressman Thomas J. Lane of Lawrence and Philip J. Philbin of Clinton are insisting that their districts be retained substantially as they are now.

This poses quite a problem to the architects of a redistricting bill whether one or two districts are being eliminated. Some changes in both districts obviously would be necessary to comply with the law.

But Lane and Philbin have enough supporters in the State Senate to block any redistricting bill which isn't satisfactory to them. That is why Democratic leaders had to give up on their original plan which would have created only one really solid Republican congressional district in the entire State.

State Senator Kevin B. Harrington, chairman of the joint legislative committee on election laws who harbors hopes of being the Democratic nominee for Lieutenant Governor, refuses to be a party to a Gerrymander or to any scheme for chopping up the Curtis district and adding the pieces to surrounding congressional sectors.

That pretty much disposes of that possibility since Harrington will have to assume the role as leader in any move to draft a new redistricting bill.

**Repubs Affront Party Hierarchy**  
Members of the Republican State Committee have managed to make themselves look even more ridiculous than their political cousins on the official

Democratic State organization.

It took a little training, but they succeeded in doing it. Of course, the odds actually favor the Republican committee members since they meet more often than their Democratic counterparts and have a greater opportunity to scale the heights of absurdity.

It seems that a motion was made at a recent meeting of the Republican State Committee to vote in 11 of the State's top GOP figures as members of the committee.

The select 11 included the cream of the Republican party, with such easily recognized names as Governor John A. Volpe, Senator Leverett Saltonstall, Congressman Joseph W. Martin, Jr., Congressman Laurence Curtis, ex-Newton Mayor Howard Whitmore, Jr., and the other GOP Congressman as well as State Senator Philip A. Graham and Boston Finance Committee Chairman Edward W. Brooke.

You might well assume that the State Committee members would steamroller through a motion to admit these distinguished gentlemen to their august membership.

If so, however, you would have to think again. The motion was defeated.

GOP State Committee members imply that this was done principally as a rebuff to Committee member Jack E. Molesworth of the Back Bay who obviously is something less than an idol with his fellow committee members.

But in the process of slapping down Molesworth, the GOP committee men and women insulted just about everybody of major prominence in the Republican party in Massachusetts.

It was the political equivalent to cutting off a leg to cure an itchy toe.

### Newton Man Center Of Strange Conflict

Norman Moore of Newton, former aide to the late Attorney General George Fingold, whose term expires shortly on the State Alcoholic Beverages Control Commission, is in the middle of some strange political pulling and hauling.

Some of the persons close to Governor Volpe want to see Moore, a Republican, given the heave-ho from the ABC Commission.

The complaint against Moore is that he did not over-extend himself in behalf of Charles Gibbons, who was chosen GOP candidate for Governor following the death of Fingold on the Labor Day weekend in 1958, and that he was later named to the ABC Commission by Ex-Governor Furolo.

What is unusual about that situation is that Moore, who at the time was considered the leader of the Fingold wing of the Republican party, spearheaded an all-out fight to have Volpe rather than Gibbons chosen as the GOP gubernatorial standard-bearer after Fingold's sudden death.

Apparently, there is no criticism of Moore's service on the ABC Commission so that Volpe might place himself in a rather awkward position if he follows the advice of those who would like to see the Newton man get the axe.

## Brotherhood Fulfills American Dream

"Our way of life depends on Brotherhood" declared William H. Sullivan, Jr., regional chairman of Brotherhood Week, in a special message released today. Chairman Sullivan, president of the Boston Patriots Football Team, called on all citizens to participate in the annual observance to be held February 18-45 under the auspices of the National Conference of Christians and Jews.

"Working to overcome prejudice and bigotry is something Americans of all races and creeds must do for America," he stated. The principles of Brotherhood in action, he said, can unleash a force more powerful than any military might."

Also well known in the business world as the president of the Metropolitan Coal and Oil Company, Sullivan pointed out that this month's celebration of Brotherhood Week marks its twenty-ninth observance and will enlist more than 10,000 communities in a nation-wide co-operative effort with its objectives.

The complete text of Mr. Sullivan's Brotherhood Week message follows: "President Kennedy knew, as all Presidents before him, that no one man could lead this great nation without the divine guidance of God and the consent of his fellow citizens. More than consent, the President asked for help when he said: "... (but) ask what you can do for your country."

"As Regional Chairman for Brotherhood Week 1962, I am proud to answer Mr. Kennedy's request. I commend to your wholehearted support the work of the National Conference of Christians and Jews in its aim to overcome fear, prejudice and bigotry among men.

"Brotherhood is the fulfillment of the American Dream. Brotherhood is the very essence of our democratic heritage and is rooted in all moral and ethical laws.

"We Americans, no matter what our race, creed or national origin, can unleash a force more powerful than any military might: the treasured example of Freedom and Liberty in action. Before it, no dictatorship can long continue to shackle the minds of men. "Brotherhood is something YOU can do for your country—by making it the guiding principle of your daily life."

### Answers Grimes

Editor,  
Newton Graphic  
Dear Sir:

A letter attributed to Lloyd Grimes, 26 Walnut Hill road, Newton Centre, published in the Newton Graphic for February 1, 1962, conveys the erroneous impression that two churches in West Newton are to be taken by eminent domain for the construction of the Boston Extension of the Massachusetts Turnpike.

The fact is that no churches are being taken in West Newton. The Lincoln Park Baptist Church is not affected at all. Some land along Margin street is being taken from the Second Church of West Newton, but the structure is not affected.

The Turnpike Authority regrets the unfortunate and unnecessary distress to the citizens of Newton that the publication of misinformation concerning these churches may have caused.

Very truly yours,  
Lawrence E. Ryan,  
Dir. of Pub. Relations

### "Democrats Anonymous"

To the Editor  
Newton Graphic  
Dear Sir:

We have Alcoholics Anonymous and Gambling Anonymous and soon swearing anonymous and pink tea anonymous and filter blend anonymous and speeding anonymous and so on and so on. In other words because so many Americans refuse to take the responsibility for their problems and stand up and fight to the finish to bring about a cure they gang up with others with the same weakness and call it a disease and "cry in each others beer" (ginger beer I assume). We just don't seem to have the intestinal fortitude to face the facts of life.

Now, if all these people and

most of the rest of the country want something to really worry about, there is a real fatal disease spreading throughout the country and the symptoms are as follows:

Government at all levels; city, state, nation vying with each other to see how much they can extract in taxes from hard-working, successful individuals and corporations so they can divide the wealth with the undeserving people that won't work and never did, if they could help it—Welfare state addicts—Inflation brewers, who promote labor groups that stand for less and poorer work and more and more pay — "do gooders" that want everyone to have everything without lifting a finger to earn it and thereby making them too weak physically and mentally to carry on.

These symptoms plus others are those of a fatal disease called democrat which unless quickly cured will so dent our great freedom loving country that it will become anonymous. Therefore, I urge the formation of "democrats anonymous" to start the cure.

Yours truly,  
MILTON W. HEATH

Waban, Massachusetts

## Hearing Set On Appeal From Dwelling Permit

The Newton Board of Appeals will hold a public hearing at City Hall, Tuesday, February 27, at 7:45 p.m. on a petition to prevent construction of a dwelling under a permit issued by the Building Department. This marked the first such appeal since the Board of Appeals was established six years ago.

Four nearby residents seek to prevent construction of a dwelling on 10,948 square feet at 65 Montvale Road, Newton Centre. The permit was issued to William Stevenson of 63 Carl street, Newton Highlands.

The petitioners contended that a variance is needed for the dwelling. They contended the lot was in common ownership with an adjoining lot.

## Listing Shows Newton Has 64,600 Adults

City Clerk Monte G. Basbas has appealed to residents of Newton who were absent from home when police lists called to fill out blue slips and mail promptly to the City Hall. He warned that failure to mail the slips could result in removal of names from the voting list.

During the 35 days of the police listing, completed last Saturday, 64,600 cards were filled out in the annual listing of Newton residents 20 years and older.

The listing showed that Newton has 6,745 pre-school children.

## Newton Naval Reservist Aboard USS Miller

A Newton Naval Reservist had a chance recently to travel to Berlin while on shore leave and observe the wall separating West and East Berlin.

Louis Fritz, 26, of 549 Boylston St., Newton, is a member of the Boston-based destroyer USS Miller, which was docked in Hamburg Germany. The reserve ship was activated last October during the Berlin crisis, and is due to return home next Wednesday, Feb. 21.

The Miller also stopped for liberty in Rotterdam, Holland; Southampton and Portsmouth, England; Londonderry and Belfast, Ireland and Lisbon, Portugal.

Summing up his experiences while in Northern Europe, Fritz stated: "The most interesting time I had was my visit to East and West Berlin. Seeing with my own eyes how people reacted toward the wall was amazing. Out of 4,000 people I saw riding through East Berlin, I did not see one person who looked happy at all. "Though on the free side of West Berlin, everybody seemed happy."

Fritz, a boatswain's mate third class, was employed as a roofer for the Gilbert and Decker Roofing Co., before being called to active duty with the MILLER four months ago.

Since then the MILLER has participated in intensive anti-submarine warfare exercises in the Atlantic under the command of Rear Admiral George P. Koch, USN.

## Women Roll Bandages, Ply Needles On Tri-Church Day

An important community tradition was continued last week in this city when approximately 200 women from three Waban churches met on Wednesday to sew and prepare articles for Newton-Wellesley Hospital.

Reflecting a custom that seems to be disappearing from the contemporary American scene, women from groups associated with the three churches put nimble and talented fingers to work for the community hospital.

Bandages were rolled in the auditorium of St. Philip Neri Roman Catholic Church. At the Church of the Good Shepherd (Episcopal) hospital gowns were sewn as well as other linen and apparel needed by hospital patients.

These activities took place in the morning. At 12:30 p.m., women gathered at the Union Church for a luncheon that was prepared and served by women of that church.

Tri-Church Day was held first at opening of World War II. Each year since then, women in the churches have taken turns rolling bandages, sewing, or serving luncheon.

At the luncheon, Harry T. Phillips, M.D., former director of the Newton Health Department, spoke to the women about, "Modern Trends in Public Health."

Present at the head table, in addition to Dr. Phillips, were: Mrs. Arthur B. Crowell, chairman of the Woman's

Guild at St. Philip Neri Church; Mrs. Warren G. Reed, president of the Women's Association at the Union Church, and Mrs. Kenneth Rogers, vice president of the Episcopal Churchwomen at the Church of the Good Shepherd. Also seated at the head table were: Dr. John C. MacDonald, pastor of the Union Church; the Rev. John L. Parsons, pastor of St. Philip Neri Church; and the Rev. Nathaniel T. Whitcomb, rector of the Church of the Good Shepherd.

Many churches in Newton and Wellesley have sewing groups that periodically meet at the hospital, in homes, or at the various churches. In some instances, such activities have been carried on almost continuously since the hospital was opened in 1886-75 years ago.

## Virus Fails To Stall Prowess Of Pin Champion

Women's World Champion candlepin bowler Stasia Czernicki beat her own record with her sixth consecutive television victory on the candlepin television show "Fun For All Ages" by defeating the North Shore contender Mrs. Pat Fournier by 33 pins last Saturday. No man or woman bowler has ever outbowled so many television competitors.

In spite of suffering from a virus, Mrs. Czernicki piled up a very respectable three-string total of 327 to Mrs. Fournier's 294. Next Saturday, the Champion will try for her seventh straight win against the Middlesex County contender Shirley Beckwith. The popular television show rated first in daytime audience is seen on Saturday noon 12:00 on Channel 5. Mrs. Stasia Czernicki teaches for the Fairway Sports World lanes in Natick.

## 165 Foreign Students At People to People Sabbath

Approximately 165 foreign students from local colleges and hospitals will be guests of Newton's Temple Shalom tomorrow evening (Friday) at a "People to People Sabbath". The students represent 47 different countries.

These students first will share a traditional Sabbath Eve dinner at the homes of individual families, in an effort to strengthen the tie that binds people to people, and later will worship together at the Sabbath Service at 8:15 o'clock at Temple Shalom.

An Oneg Shabbat in honor of the guests will follow the services. Rabbi Murray I. Rothman, spiritual leader of Temple Shalom, will conduct the service and feels that "as our knowledge of the universe grows greater, the significance of the individual human seems to grow smaller; and our 'People to People Sabbath' is designed to remind us dramatically that the exploration of inner space is our prime concern".

Under the direction of Frank Bronstein, chairman of the Social Action Committee, Mrs. Jack Fisher, chairman of the "People to People Sabbath" worked unceasingly with Mr. and Mrs. John Pettigill of the International Students Association and Miss Ann Forbes to make all the complicated arrangements of transportation and distribution.

Leonard A. Bernheimer, son of Mrs. Louise Bernheimer, 210 Bellevue street, Newton, is president of Delta Upsilon fraternity at Williams College, following the recent election to name officers for the coming academic year. He is a member of the Williams Travel Bureau and Bridge Club and has played freshman and varsity squash and lacrosse. He also is a Dean's List and sophomore honors student.

## Mayor's Budget

(Continued from Page 1)

Under a new law effective this year an allowance of \$84,573 for school pensions is included in the municipal budget. That item last year was contained in the school budget.

Thus, the school budget for this year is actually \$923,582 greater than last year, and the suggested appropriations within the control of the Mayor are about \$82,191 lower than in 1962.

Mayor Gibbs slashed \$1,452,751 from the estimates of his department in one of the most severe budget-cutting operations in the history of the city.

Department heads, apart from the school system, sought appropriations of \$15,855,633 to run their various branches of the municipal government, and the Mayor allowed them \$1,452,751.

The amount allowed by the Mayor for the operation of the water department was \$53,449.63 less than a year ago.

Allowances for all other city departments were \$28,741 smaller than in 1961 if the school pension appropriation is deducted from the Mayor's budget.

Mayor Gibbs recommended \$300-a-year increases for patrolmen in the police department and privates in the fire department.

This would bring them to the \$5500-a-year maximum proposed in the Evans Report which Gibbs is seeking to have put into effect.

The Mayor last year advocated \$300-a-year boosts for the police and firefighters, but the Aldermen cut the raise to \$200.

Mayor Gibbs also is following the recommendations of the Evans Report for the compensation of other city employees.

Gerard M. Boyce, son of Mr. and Mrs. John F. Boyce of 192 Chapel street, Newton, has been cited for excellence in scholarship at Massachusetts College of Pharmacy for the first semester. He is a graduate of Our Lady's High School.

**HEADS DRIVE**—Curt Gowdy of Wellesley Hills, nationally known sports announcer and "Voice of the Boston Red Sox" will head the 1962 Massachusetts Easter Seal campaign, it was announced this week by George M. Rideout, also of Wellesley Hills, president of the Bay State Society for the Crippled and Handicapped, the Easter Seal society. Drive will be held from March 15 through Easter, April 22.

## South Hoopsters Push Record To 8-8 On Season

Newton South High's basketball team pushed its record to 8-8 on the season with a 44 to 42 win over Waltham and a 60 to 56 loss to the tough Brockton High team in Suburban League contests.

This marked the second win by South over Waltham this season. The earlier score was 54 to 40. But last Wednesday Waltham began its offensive

too late as Co-Capt. Bob Karagiosian paced the Lions with 17 points. There were less than 15 seconds on the clock when his rebound tap scored the points which proved to be the margin of victory.

There were more than 1,000 fans in the West Junior High gym in Brockton on Friday evening for the game between Brockton and Newton South, and for quite a spell Brockton got a scare as the Lions were leading 44 to 38 going into the final quarter. In an earlier season game, Brockton also squeezed by, that time by a score of 67 to 65.

## Great Decisions Group Meeting On Monday Night

Great decisions, the current foreign policy study group meetings have been taking place throughout Newton these past two weeks and are scheduled to continue for six more weeks. Some groups, using a staggered schedule, will

continue well into the spring. The public is invited to join the open meetings being held at the Newtonville Library on Monday evenings. The topic next Monday, February 19, at 8 p.m. is "Brazil—Which Way Half a Continent?" Nicholas Nyary, the executive director of the Boston World Affairs Council, will moderate the discussion. Mr. Nyary has a broad background which ranges from working with Radio Free Europe to lecturing

extensively on international relations and teaching at MIT. These programs are designed to help people catch up with current foreign policy problems. Together they explore and discuss all the ramifications of policy in the world's most troubled areas.

There are panel and documentary programs on both radio and television each week as well as background kits being sold at the Newton Corner, Newton Centre and Newtonville Libraries and at the Stop and Shop at Chestnut Hill. The TV shows include a documentary shown on Tuesdays at 10:30 a.m. and at 8 p.m. and a panel of experts on Thursdays at 8 p.m. on Channel 2. A separate panel moderated by Dr. Milton Sacks of Newton can be heard on WCRB-FM radio at 7 p.m. on Thursday evenings and at 11 p.m. on Monday evenings.

The committee report was presented in mimeographed form at a meeting at the Newton South High School on October 25, 1961. Richard W. Mechem, Principal of Newton High School, and Dr. Donald Davidson, Principal of Newton South High School, expressed approval of the plan. After careful discussion, the report of the committee was accepted with one minor addition and the committee was instructed to proceed with its execution.

**Recipients of Book Prizes**  
The recipient in each high school is to be a senior in the liberal arts courses, ranking among the ten top seniors. Selection is to be made by the Principal in each high school, with the advice of a Faculty Committee, appointed by him.

Consideration will be given to such qualities as high moral character, excellence in performance of studies, originality and creativity, self-direction and motivation, ability to coordinate various branches of learning and zest for intellectual and cultural interests.

### Permanent Committee Provisions

The prize books are to be selected by a committee of nine members of Phi Beta Kappa residing in the City of Newton, one third of whom will retire each year. For the first year the seven members of the original committee will serve on the new committee together with two others whom they appointed, as authorized by the October meeting. In order to secure continuity of the project, the committee is to be rotating and self sustaining.

One of the nine is to be selected by the committee to serve as chairman for the year, and another of the nine to serve as secretary-treasurer. The latter will send out requests for contributions and will receive them.

The present members of the committee of nine are as follows: James T. Barrs, West Newton, Univ. of Georgia, A.B., Harvard, Ph.D., Assoc. ### Testimonial Honors Lionel, Arthur Cohen

Valley's Steak House was the scene of a gala banquet recently when 300 residents gathered to pay tribute to Lionel and Arthur Cohen upon their retirement from 31 years of operation of their spa at the junction of Boylston street and Langley road in Thompsonville.

Many words were spoken in testimony of the high regard in which the principals are held by their neighbors who, through John J. Del Monte, president of the Fillipo Corsi Society, presented the Cohens with gold watches upon which were engraved the sentiments of their well-wishers.

Seated at the head table were, in addition to the recipients of the testimony, Mr. and Mrs. John J. Del Monte, Mr. and Mrs. Robert Cohen, Mrs. Domenic Tresca representing the San Giovanni di Capestrano Society, George Quirk, commander of George D. Carson Post 141, American Legion, and Fred Sawyer, toastmaster.

The affair was concluded with informal entertainment including exhibition dancing which featured Committee Chairman Edward P. Calnan in his version of "The Twist."

Members of the banquet arrangements committee were: Mr. Calnan, Fred Sawyer, John J. Del Monte, Carmen De Felice, Robert Murray, George Malone, Joseph Link, Victor Taglienti, Geoffrey Morrison, Donald Ferreri, Anthony De Maio, Aurelio Di Muzzio.

Alicia M. Hebb, daughter of Mr. and Mrs. A. K. Hebb, 50 Playstead road, Newton, has been cited for excellence in scholarship at the Massachusetts College of Pharmacy for the first semester of the 1961-62 session. She is a graduate of Our Lady's High School.

**Club:** Elsbeth Melville (Mrs. Atlee L. Percy), Newtonville, Boston Univ., A.B., New York Univ., A.M., University Dean of Women, Boston Univ., President of the Boston Branch of the Am. Assoc. of Univ. Women, and National Chairman of the Personnel and Training Committee of the Camp Fire Girls; Robert E. Segal, Newton Highlands, Ohio State, A.B., Exec. Director of the Jewish Community Council of Metropolitan Boston, and President of the World Affairs Council of Newton; Margaret South, West Newton, Boston Univ., A.B., A.M., Volunteer worker with the Junior Red Cross, and former Social Studies Teacher at the Newton High School and Senior Class Advisor; Frieda S. Ullian (Mrs. H. B.), Newton Centre, Radcliffe, A.B., Ph.D., Harvard, Ed.M., Independent Research Analyst, in Economics and Education, Trustee of Radcliffe College, a member of the Mass. Citizens Committee for the Public Schools.

The committee elected Mrs. H. B. Ullian to be chairman, and Miss Margaret South to be secretary-treasurer.

**Financial Provisions**  
The cost of the book prize is to be met by annual voluntary contributions from \$1 to \$5, or more, sent to the secretary-treasurer. Amounts over and above annual expenses are to be allowed to accumulate until such time as the committee calls a meeting of all Newton Phi Beta Kappa members to vote on other projects.

It is hoped that other communities will follow the example of Newton and organize Phi Beta Kappa committees for the awarding of prizes in the High Schools.

"I want to see every authority which has been set up by our legislature have to submit to the same kind of auditing that State agencies submit to. As long as I am Governor, there will be no setting up of any Authorities without a provision to audit their books."

Commenting on the problems facing him, Governor Volpe added:

## responsibility as in our State of Massachusetts.

The Governor also touched on his recommendation for a Four Year Term for the Governor, the Governor's right to name his own department heads, and to the needed reorganization of the unwieldy State agencies He pledged to continue his fight for these issues.

In his speech to the gathering, Congressman Jack Westland, of the State of Washington, emphasized the vast numbers of people who are Republicans, stating:

"We should never lose sight of the fact that more than thirty-four million people voted for a Republican form of government in 1960 and that out of almost sixty-nine million votes cast we lost by about 112,000 — the smallest margin since the 1888 election." We must speak for those thirty-four million Republicans and carry the fight for them with all the power at our command."

Underlining the responsibility of citizenship, Congressman Westland added:

**Politics Is Our Everyday Affair**  
"Politics is your business — not just that of the politician. It's in your business every day of your life and unless you pay attention and devote some of your energy in getting the right sort of people elected, the wrong ones will get in and you'll be the ones to suffer."

Commenting on policies of the present Administration, the Congressman stated:

"In the light of the fact that America is the strongest nation in the world, it is amazing that we are being pushed around. I believe the people are tired of the way we have given in on numerous occasions when we should have bargained from a position of strength."

**"As Republicans we must remind the voter that our nation became a great industrial power because we encouraged free enterprise. Only by free enterprise can we reach our maximum potential to produce the taxes it takes to run the government, defend the nation and to provide the capital for economic growth"**

Chairman of the dinner was Edward C. Uehlein. Head table guests included: William A. Lincoln, chairman State Finance Committee; Ralph H. Bonnell, Republican National Committeeman; Donald L. ## Urge Equality In Newton Schools' Library Services

Mayor Donald L. Gibbs has suggested that the requirements of school libraries be made part of an over-all study of Newton's library structure. He said he was seeking a consultant to make the survey and proposed that the school libraries be made part of the survey.

Mayor Gibbs made his suggestion at a meeting of the School Committee Monday night when members of the League of Women Voters discussed results of a two-year study which led to recommendations in school and public libraries.

Mrs. Melvin Gordon, chairman of the library committee, said the city has 24 school libraries staffed and financed by PTA volunteers; the Horace Mann has no library facility. She urged a plan to equalize school libraries in terms of books, facilities and personnel.

Mrs. Leopold Beckwith, league president, said the problem would not exist if school libraries were financed by the city instead of by the individual PTAs.

However, it was pointed out that if a professional librarian were engaged for every school it would entail expenditure of about \$150,000; also the 1962 School Committee budget has been committed.

In addition to Mrs. Beckwith and Mrs. Gordon those attending the meeting included Miss Elvjean Hall, supervisor of library services in the Newton Schools; Mrs. Gerald Peretsman, Mrs. Bernard Kaplan, Mrs. Melvin Shoul, Mrs. Irving Finlen and Mrs. Thomas Gephart.

## Promise Aid To Firms In Toll Road Path

The City of Newton and the Chamber of Commerce have promised full cooperation to provide assistance to businesses and industries to be affected by the toll road extension into Newton.

This was assured in a questionnaire from the Chamber of Commerce and an accompanying letter from Mayor Donald L. Gibbs sent to all such firms, concerning their need for assistance in relocating.

Firms were asked to fill out and promptly return the questionnaire, as the information will be used to determine extent of overall relocation needs within Newton.

Those interested in joining this group for the second term, may get further information by calling Mr. Bean at BEacon 2-9843. The remaining plays to be read are: "Macbeth" (February); "Antony and Cleopatra" (March); and "The Tempest" (April).

## Delay Reply From School Custodians

The Newton School Committee suggested last Monday that a group representing the Building Service Employees Local, return on Monday evening, February 26, because the Committee had a full agenda.

The custodians sought to reply to the comment made three weeks ago by a Committee member concerning the suggestion that organizations may have been charged illegally for services during school hours.

Services of a custodian beyond the normal school closing often are required by basketball games, Scout activities, arts and crafts classes, etc. It has been the custom to allow custodians to collect from organizations which use school buildings after school hours.

The issue was raised three weeks ago by Mrs. Genevieve R. Oncley, School Committee Chairman Haskell C. Freedman observed at the Monday meeting that a mountain-mole hill situation existed.

He said that it may not be necessary to discuss the matter at the next meeting if the custodians and the administration resolve their differences before February 26.

**Newton Schools Join In New Teaching Aid**

The Newton School System was among those which cooperated with Boston College in what was described by Rev. Charles F. Donovan S.J., Academic Vice President, as "the dawn of a new rapprochement and a new respect on the part of University people for school teachers."

Fr. Donovan said universities always deplored the breach between university and school, but nothing constructive was done about it up to now. He spoke at a co-operating teachers banquet attended by school authorities from 31 cities and towns representing 83 schools and 129 Boston College School of Education seniors who completed a semester of practice teaching.

Thirteen students from Boston College who completed practice teaching at local schools included: Julie Aucoin, 8 Adams St., Spencer, who taught French at Newton South High;

Rosanne Contardo, 927 Quinton Ave., Trenton, N.J., who taught in the elementary grades at Cabot School;

Raymond Crean, Rear 151 Lowell St., Peabody, who taught English at North Newton High;

Susan Greeley 43 Taft Ave., W. Newton, who taught in the elementary grades at Carr School, Newton;

Mary Grenon, 15 Ashwood Rd., Lynn, who taught in the

elementary grades at Mason-Rice School, Newton;

Beatrice Hanley, 292 Lexington St., Watertown, who taught in the elementary grades at Hyde School, Newton;

Stephen Kelleher, 592 Summer St., Arlington, who taught History at Newton High School;

Jane Kilgallen, 268 Melrose St., Auburndale, who taught in the elementary grades at Peirce, Newton;

Mary A. Moraniec, 976 North St., Milford, Conn., who taught French at Newton So. High;

### Seminary Establishes 2 New Chairs

The Andover Newton Theological School in Newton Centre, has established two new Chairs of Learning at exercises held Tuesday at the school, one of the first Protestant seminaries in America.

The Judson Chair of Christian Missions and World Religions was in memory of Adoniram Judson, a member of the first graduating class of the seminary and the first foreign missionary to leave American shores in 1812 from Salem.

The second Chair was named the Samuel Edgar Lowry Chair of Old Testament in memory of the former minister of the North Congregational Church in Newton. The bequest was given by his son, a prominent Boston businessman, William E. Lowry of Newton.

The Lowry Chair will be occupied by Rev. Dr. Norman K. Gottwald, who has been Professor of Old Testament at the school since 1955. He has just returned from a sabbatical year in Israel.

Dr. Gottwald is a graduate of Eastern Baptist College and Seminary in Philadelphia, and received the B.D. degree from Union Theological Seminary, New York, and the Ph.D. degree from Columbia University. He has taught at Columbia University in the Department of Religion and has been professor of Old Testament at Andover Newton Theological School since 1955.

In 1960-61 he was a Fulbright Research Scholar at Hebrew University, Jerusalem, Israel, and his Duncan Lecture is a result of his sabbatical year in Israel. He is the author of several books including "A Light to the Nations: An Introduction to the Old Testament."

Named to the Judson chair was Rev. Dr. J. Leslie Dunstan, Professor of Missions at the School since 1954. He also has just completed a year's sabbatical leave which included visits to mission stations around the world.

Dr. Dunstan, originally from England, is a graduate of Colby College, attended Union Theological Seminary, and received a Ph.D. from Columbia University. He served in Hawaii for 23 years, including 14 years as General Secretary of the Hawaiian Board of Missions before coming to Andover Newton Theological School in 1954 as Professor of Missions and Comparative Religion. His most recent book "Protestantism" has just been published by Braziller.

Dr. Dunstan discussed the importance of missions and the obligation of the church of Christ to seek the evangelization of the world. He said the field of missions has "changed from a geographical one to a universal spiritual one."

"The church is not really the church unless it is missionary, and a missionary enterprise apart from the church

has no base upon which to proceed. The study of missions reveals more clearly than any other way the somewhat tortuous path the church has traveled as it has worked out the vision it has had of the world.

"Missions have long been considered not quite respectable academically and the current trend confirms that judgement instead of changing it; the current trend debases the subject of missions. Missions do not stem from man but man from God; and the work of missions must be carried on from that perspective. Only then will the true depth of the missions enterprise be seen," Dr. Dunstan said.

Dr. Gottwald in his address maintained that "government leaders practice a double standard of responsibility in certain areas until the Communists or the neutrals accept the same responsibility."

He said "we seek to evade God by assuming that we are only answerable to Him if other nations also acknowledge the same responsibility."

In particular, he said, a nation "must strive to avoid the rationalizations which regard similar behavior as innocent in itself and its friends but as hypocritical and even malicious in its enemies. Numerous examples from the Cold War come readily to mind as, for example, political propaganda and nuclear testing, both of which we consider hostile acts in the communist case but simply neutral defensive actions in our own case. The sensitivity of the nation must be kept open to the unexpected good in its enemies as well as to the undesired evil in itself and its friends."

Dr. Gottwald continued: "Every American has a political calling with respect to nuclear weapons, but the calling concerns not only the crime of their use but also the ways of thought and conduct which

persuade us that such indiscriminate murder can serve freedom or justice. Our calling reaches through the whole of life. It may not occur to individual Germans that the way they lived thirty or forty years ago made it either a little harder or a little easier for the Jews to be gassed. But that was the case. It may not occur to individual Americans that the way we live today makes it either a little harder or a little easier for someone to start a nuclear war. But that is also the case.

"We fail to see that in international relations we, the individual citizens, constitute the major problem. We do not want the change in ourselves that serious outward reform demands. Because we are not prepared to disarm our fears and violent urges we are not prepared to work for disarmament. Because we will not stifle our own inordinate greed we are not eager to share a better life with other people. Everything hangs upon the 'turning', the repentance, which is the key to all prophetic ethics — including the relations of nations."

## FIGHT LOOMS OVER POLICE, FIRE RAISES

### Dispute Looms Over Site Of Incinerator

A hot dispute looms over a recommendation by a noted engineering firm that a \$2,000,000 incinerator, with a capacity for burning 500 tons of refuse a day, be erected on the site of the Pine street dump in West Newton.

The proposal is now pending before the Board of Aldermen.

Recommendation for the construction of the incinerator at the West Newton site was contained in a 25-page report submitted to Mayor Donald L. Gibbs by a Boston consulting engineering firm.

The Mayor, after receiving the plan, declared he would move as swiftly as possible to put it into effect.

His first move was to forward it to the Aldermanic Board for consideration.

The recommendation has been approved by the Mayor's Citizen Advisory Committee on Public Buildings. The survey was made by the firm of Metcalf & Eddy.

Engineering experts employed by the firm reported that they considered several

sites in Newton before reaching their determination that the Pine street dump was the most suitable location in the city for an incinerator.

One of the factors which influenced their decision, they indicated, is that ashes from a Pine street incinerator could be deposited in the nearby meadow area.

Public acceptability of the location as the site for the incinerator, access too for the

### Newton, GBI Champs, Ready For State Play

Coach Sarge Kinlin's Newton High School hockey team, winner of the GBI championship after a lapse of 22 long years, kept on edge by light workouts this week in preparation for the first round of the State Tournament.

This will be at Boston Arena next Tuesday, Feb. 27. But who will be Newton's opponent in that all-important first round game will not be known until later.

Coach Kinlin said that the pairings of the Selection Committee are expected to be known by this Saturday.

Newton won its GBI championship at the Arena before 1400 when the Tigers had to settle for a tie with Somerville at 3-3. Newton won 3-1 lead with 65 seconds remaining. Newton's star goalie pulled a muscle, was replaced in the nets, and Somerville banged in two goals.

But the tie was enough to give Newton its first GBI title which they won exactly to the day 22 years ago when C. Evan Johnson, retiring City of Newton Recreation Com-

missioner, was hockey coach at Newton High.

In other 13th round games at the Arena last Saturday, Waltham edged Medford 2-1; Cambridge and Arlington remained in a second-place tie with a 1-1 standoff and Brookline and Rindge played to a 2-2 deadlock.

Tuesday's play-off game between Cambridge and Arlington had no bearing on the title.

### POLITICAL HIGHLIGHTS

By JAMES G. COLBERT

#### Volpe Corruption Speeches Draw Fire From Democrats

Democratic leaders on Beacon Hill charge that Governor Volpe is looking beyond the 1962 State election and is attempting to build himself up as a Vice Presidential prospect for 1964 by hammering away at the corruption issue in speeches both within Massachusetts and beyond the borders of the State.

Undoubtedly, there is some basis for this claim, but there isn't much the Democratic strategists can do about the situation except to hit back at Volpe with the ammunition at their disposal, and then they risk the possibility of playing into Volpe's hands.

Volpe is following a shrewd political course. He unquestionably will be catapulted into national prominence if the election returns next November indicate that he has generated a Republican trend in President Kennedy's home State.

That could happen with scandals breaking on all sides and with indictments being returned in wholesale fashion even though the Democrats are conducting most of the investigations, exposing most of the wrong-doing and obtaining the indictments.

What the public's reaction will be to the shocking revelations coming out of the congressional investigation into the vast property purchases by the State Public Works Department as part of its federally financed highway construction program, is something only time will determine.

Democratic chieftains are incensed at Volpe's action in placing the responsibility for the land-taking scandal upon the Democrats in a speech he made at Wilmington, Delaware.

While Volpe obviously was playing politics in his address, the hard fact is that the very Democrats, who are complaining most loudly, probably would have done exactly what Volpe did if the

LeVine, Newton Fair Housing Practices Committee; Samuel Turner, former chairman, Fair Housing Federation of Greater Boston; and Dr. Charles E. Brown, superintendent of schools in Newton.

### Corps Of Volunteers Will Take Part In Heart Drive

A corps of Newton volunteers will participate in a nationwide, house-to-house canvass for the Heart Fund this Sunday afternoon, February 25.

Climaxing the 1962 Heart Fund campaign, the Heart Sunday canvass will be the most extensive solicitation

ever organized by the American Heart Association and its affiliates. Proceeds will support life-saving programs of heart research, education and community service.

A dual purpose of the canvass, according to Mrs. Ralph Richmond, Newton's Heart Sunday chairman, will be the opportunity to distribute heart-health leaflets. Mrs. Richmond noted that heart disease causes more deaths than all other causes combined.

In addition to the Heart Sunday chairman, other leaders in Newton's month-long Heart Fund campaign are: Stanley S. Lowenberg, general chairman; Henry Van Unen, treasurer; Mrs. B. Al-

den Thresher and Mrs. Norman S. Rabb, co-chairmen of the advance gifts committee; John R. Umina, merchants chairman, and Mrs. E. Lake Jones, publicity.

Area chairmen for the Heart Sunday canvass are: Mrs. William Aston, the Rev. Sylvio Barrette, Mrs. J. Clement McCann, Mrs. Leo A. Wexler, Mrs. Kenneth Lee, Philip Levine, Mrs. Milton Freedburg, Mrs. Bernice Glickman, Mrs. Stanley N. Pearlstein, Howard Elliot Branch and Mrs. Hyman Horwitz, and Mrs. William Giles.

### Mayor's Recommendation Faces Tussle With Board of Aldermen

A fight looms in the Board of Aldermen over a recommendation by Mayor Donald L. Gibbs that patrolmen in the city's police department and privates in the fire department be granted a \$300-a-year raise as suggested in the Evans Report.

Present indications, however, are that the Mayor has a better than even chance of winning the battle after a

lively debate next month.

The pay envelopes of approximately 225 firefighters and about 160 patrolmen will be affected by the passage or revision of the Evans Report which the Mayor is backing. At the present time the maximum pay for the patrolmen and fire departments is \$5200 a year. On the basis of the Evans Report, Mayor Gibbs is seeking to raise that amount to \$5500.

A proposal by the Mayor last year for a \$300-a-year increase for the patrolmen firefighters was pared down by the Aldermen and only \$200 granted.

"While it is evident that Mayor Gibbs will have much stronger support in the Aldermanic Board this year in his fight for the adoption of the Evans Report, some opposition will be offered to putting the provisions of the report into effect in a two-year span.

Whether the Mayor will be able to muster enough backing to secure approval of the plan is still uncertain, but the guessing of well informed City Hall observers is that he will be able to do so.

The fact that Gibbs slashed departmental appropriations to the bone and that the city's budget actually is about \$82,000 smaller than last year greatly enhance the chances that the police and fighters will get their \$300-a-year raise.

Mayor Gibbs takes the position that the city spent good money to have a study of the job classifications and salaries of municipal employees made by a firm of experts and that having received the findings and recommendations submitted in the Evans Report it should follow them.

Other municipal officials backing the Mayor's recommendations pointed out that the raises recommended in the Evans Report are modest compared to those granted in the school department by the School Committee.

Approximately half the employees in the various city departments would get upward salary adjustments under the provisions of the Evans Report.

The raises would go into

### Mayor Gibbs Seeks Snow Plowing Funds

Mayor Gibbs in a message to the Board of Aldermen this week requested a special \$100,000 appropriation in advance of the adoption of the city's budget in order to meet any snow emergency which may arise.

The Mayor sought the special funds as a result of recent storms which have made a heavy dent in the amount of money the city can spend before the budget is passed.

Gibbs explained that the \$100,000 would be applied against a \$250,000 appropriation he recommended in his

### Newton Battles 2nd Big Storm In Week

Newton's entire mechanized force of snow fighters again went into action Monday morning as the first snowflakes marked the start of the pre-Washington's Birthday storm—which followed on the heels of the sneak storm which left up to 15 inches of snow in Newton.

Recently-acquired heavy plows again paced the way for 120 pieces of city-owned equipment and the 40 hired trucks when the second major storm began in less than a week.

Director of Public Works Willard S. Pratt said 300 men hired to battle the first storm again went into action on Monday. All the hired trucks continued work Thursday to clear as much of the snow clogging streets as possible, because of a predicted second storm due last Friday.

However, that storm failed to materialize and Newton's streets were in excellent condition by the weekend.

It was just 25 years ago when the "big" Valentine storm blanketed Newton along with other New England cities and towns. Winds reached 60 miles an hour and caused drifts up to eight feet. Snow mounds blocked railroad tracks and highways.

Last week's Valentine Day

storm was estimated to cost the City of Newton \$100,000. All school sessions were cancelled last week by the storm, but this week's blow came during school vacation week.

Police reported that 14 cars impeding snow removal work after last week's storm were ordered towed away.

Sanding and salting operations began at 1 p.m. Wednesday and plowing was begun at 4:30 o'clock. By midnight all streets were cleared, but plowing operations had to be continued because of an additional fall of five inches.

Mr. Pratt reported that in both storms sidewalk plows were in operation in accordance with the increased

### Three Troop 25 Scouts Get Eagle Rank at Family Night

The induction of three Boy Scouts to Eagle rank highlighted the recent observance by Troop 25 of Temple Emanuel of Newton of the 13th anniversary of the granting of its charter.

Richard M. Bloom, Barton Menlove and David Winer were the scouts honored at colorful and impressive ceremonies at the annual Family Dinner of Troop 25 held in the Community Hall of the Temple.

The ceremony marked the first time in the history of Troop 25 that three boys have achieved this high scouting honor in the same year.

Following the induction ceremony, Dr. Albert I. Gordon, Rabbi of Temple Emanuel, stressed the positive values of character building and good citizenship to be derived from participation in the type of wholesome activity afforded by the Boy Scout Movement in America. The scouts and their guests were entertained with the scout film "Jamboree-Jubilee" held at Colorado Springs, Colorado, and the official Boston Red Sox film reviewing high-

lights of the 1961 baseball season.

Abraham Stadlen was dinner chairman, Benjamin Lofchie is scoutmaster, and Harry Weiner is troop committee chairman.

Head Table guests included: Edward Gitten, scoutmaster, Troop 9 and chairman of Scout Court of Honor; Daniel Bloom.

trucks which would haul rubbish and refuse to the incinerator, and future centres of population, all were considered by the engineers before picking the Pine street dump, it was stated.

They said they found no other location in the entire city, which is either publicly or privately owned, that is preferable to the Pine street sector after all aspects had been studied.

It is estimated that it will cost \$78,800 to run the incinerator during the first year it is in operation.

In their report to Mayor Gibbs the engineering experts made the following recommendations:

"The recommendations are designed to provide incinerating facilities suitable for the city during the next 20 years."

"The city refuse, including garbage at some later date, be disposed of by incineration."

"That facilities be adequate for a 1982 population of 115,000."

"That the use of the existing Elliot St. incinerator, as a refuse incinerator, be discontinued except for limited use."

"That a bin-and-crane type incinerator be constructed using continuous feed type furnaces."

"That the plant capacity be 500 tons per day, based on the use of two 250-tons per day furnaces."

"That fly-ash control equipment be included as part of the plant installation."

schedule which was drawn up following the acquisition of new apparatus.

Ten persons were reported injured as a result of skidding accidents, but none of the injuries was reported as serious.

The most spectacular accident was a four-car crash in Newton Upper Falls in which a tractor-trailer jackknifed on the Worcester Turnpike. No one was injured in the accident, police said.

effect May 1. They would cost somewhere in the vicinity of \$250,000 for the last eight months of this year, according to estimates.

The Evans report recommended that the upward revisions in salaries be put into effect in two steps, the first last year and the second this year.

Mayor Gibbs, however, did not succeed in carrying out the entire recommended first step in 1961.

### School Expenditures

A difference of opinion obviously exists between Mayor Donald L. Gibbs and the members of the School Committee as to the amount of money which should be expended this year for the operation of Newton's public school system.

That has been reflected both directly and indirectly by a number of statements the Mayor has made, starting with his inaugural address on New Year's Day.

It is understandable that the Mayor, while slashing the budget under his control to the very bone, would not be at all enthusiastic about an increase of \$839,000 in the school budget.

Since the public has a tendency to hold a Mayor responsible for any increase in the city's tax rate, it also is perfectly natural that Mayor Gibbs or any Mayor would take a somewhat dim view of steadily rising school costs, and the situation in Newton is not too much different from that in numerous other cities.

Perhaps the eventual solution will be to enact a law providing that two different tax bills will be sent out in a city such as Newton, one for municipal expenses which come under the control of the Mayor and Aldermen and the second for public school expenditures.

In fairness to the members of the School Committee, however, it should be pointed out that the people of Newton apparently want quality education in their public school system and are prepared to pay for it. Certainly, there has been no strong evidence to the contrary.

This point is an important one because there is every reason to believe that school expenses in Newton and elsewhere will continue to climb.

School Committee Chairman Haskell C. Freedman in a recent address predicted that the national average of school costs will double in the next ten years.

While Mr. Freedman did not pinpoint what may be expected in Newton, it is reasonable to assume that the trend in this city will not be much different from that in the nation as a whole.

Newton is fortunate in having perhaps the finest public school system of any city in Massachusetts. But it will cost more and more money to maintain and presumably improve the standards of the school system.

The members of our School Committee are conscientious men and women who serve without compensation and give freely of their time and talents.

They have accepted the responsibility for the appropriations they vote, and judging from the manner in which they are elected they are providing the kind of school system at least a majority of the citizens of Newton want.

### Newton's 1962 Budget

Mayor Donald L. Gibbs came up with an amazing accomplishment when he produced a municipal budget (exclusive of schools) which is only \$2382 larger than the budget of a year ago.

Except for the fact that a new law provides that appropriations for school pensions must be included this year in the Mayor's budget rather than in the school department budget as in the past, Mayor Gibbs would have submitted to the Aldermen a budget about \$82,000 lower than that presented in 1961.

In view of the fact that the Mayor allocated funds for raises for patrolmen in the police department, privates in the fire department and other city employees, this is an almost incredible achievement.

It reflects the fact that Mayor Gibbs bore down heavily with the pruning knife in reducing the estimates and requests submitted to him by his department heads in order to avert a big increase in the city's tax rate.

Some municipal officials must have moaned when they saw what the Mayor did to their requests for funds to operate their branches of the city government.

There may even be those who will wonder if the Mayor allowed enough money for the proper operation of the city.

One sure thing, however, is that Newton taxpayers must be convinced that Mayor Gibbs has a deep and profound respect for the tax dollars they pay into the city treasury.

### Hockey Champions

Congratulations to Coach Sarge Kinlin and his fine Newton High School hockey team on their feat in winning the first GBI ice championship the school has won in 22 years.

Newton has reason to be proud of this hustling, well-coached team which time and again proved its mettle under the test of stern competition.

The hopes of Newton High followers will ride with it as it enters the State tournament.

### Young GOP Club Shows Film Of Anti-Red China

The provocative film, "Red China—Outlaw" will be presented tonight (Thursday) by the Newton Young Republican Club at the Newton Community Center at 429 Cherry St., West Newton, at 8 o'clock. This presentation is produced by the Committee of

One Million Against the Admission of Red China to the United Nations and is narrated by Lowell Thomas with Senator Thomas J. Dodd, Representative Walter Judd and Senator Paul H. Douglas.

An open discussion period will follow, moderated by Mr. Daniel Carmen, president of the Greater Boston Chapter of Young Americans for Freedom.

The public is cordially invited to attend and refreshments will be served.

### OUR READERS SAY

#### Correct Report

Editor of the Graphic

Dear Sir:

The February 15 report, in the Graphic, by the Legislative Workshop of the League of Women Voters said that both Representative Heaney and Representative Muther stated that they favored the tax amendment to the Constitution which will appear as a referendum on the November ballot.

This was a mistake. The tax amendment was mentioned only as a coming referendum which the League of Women Voters is supporting. Neither representative made any statement on the subject, which is no longer a legislative matter since the necessary two successive Legislatures have approved it.

Sincerely,  
GERTRUDE S. LOCKE  
Chairman of the Fiscal Policies Committee of the League of Women Voters of Newton

### Newton Firm In Tribute to Hub Pro Footballers

A Newton firm saluted the Boston Patriots pro grid team at a formal dinner at the Algonquin Club in Boston last Thursday evening, Feb. 15.

Given in recognition of the record compiled during the past season and as the newest addition on the Hub pro sports scene, the dinner was tendered to the Patriots by Robert M. Jenney, president of Jenney Manufacturing Company in Newton which is celebrating its 150th anniversary this year.

Joseph Foss, American Professional Football League president, was the principal speaker at the dinner. Other speakers included Mayor Collins of Boston; William H. Sullivan Jr. Patriots president; Patriots coach Mike Holovak; and Mr. Jenney. Norman Knight, president of Knight Management, served as toastmaster.

### Political Highlights

(Continued from Page 1)

situation had been reversed and they had been in his place.

However, Volpe's statements in his Delaware speech stood out in sharp contrast to the guarded replies the Governor made at a State House press conference when questioned about assertions by Representative Harrison Chadwick of Winchester that corruption has risen in proportion to the increase of Democrats in the State government.

Volpe's speech writers seemingly go further in placing the responsibility for corruption at the door of the Democratic party than does the Governor when he's talking off the cuff and using his own words. But he uses the speeches turned out by his ghost writers. Their words become his when he reads them.

The Governor's action in blaming the Furcolo administration for the highway land-taking scandal could boomerang to some degree.

It's true that Foster Furcolo was Governor when the scandalous skulduggery, which resulted in excessive payments for properties, took place.

But some of the key figures in the land damage scandal were Republicans who had served in the State Public Works Department when Volpe himself headed the department.

This doesn't mean that the Furcolo administration should be absolved of any of its responsibility for what occurred or that Volpe is in any way accountable for what happened after he stepped out as head of the DPW. But it does mean that Republicans as well as Democrats are involved in the scandal.

What troubled many persons more than Volpe's slap at the Furcolo administration was his reference in an out-of-state speech to "a solid pattern of crime and corruption" in Massachusetts and his assertion that "subsequent probes, exposures and court actions laid bare a sickening series of criminal activities and betrayals of public trust."

Those strong statements, coupled with Volpe's attempt to blame the Democrats for corruption in the State government, drew an immediate volley of counter charges that Volpe was issuing misleading information and was blackening the name of his home State in order to advance his own political ambitions.

Even crusading Republican Representative Francis W. Perry of Duxbury, who hammered away day after day and week after week with charges against the State Waterways Division before he was able to prod Volpe into any action, took issue with the Governor.

The frank, forthright Perry observed that corruption bears no party label.

Perry, who encountered opposition within his own party and was frequently admonished to "lay off" when he started his drive against the Waterways Division, said he would "like to see our party develop a determination to go after things without fear or favor."

He expressed the conviction that all elements of the GOP have not indicated their readiness to tackle problems head-on and let the chips fall where they may irrespective of who gets hit or hurt.

That is the appraisal of a Republican who as a crusader against corruption rates several notches above Governor Volpe. Perry is the one member of the GOP who stands out like a beacon light not only for what he has exposed but for his own personal standards of integrity and his willingness to face up to the facts, whatever they may be.

Perry, a staunch Republican, voiced praise for State Auditor Thomas J. Buckley, a Democrat, for exposing conditions in the State Waterways Division.

### BROTHER JUNIPER AND THE ELECTRONIC AGE

Courtesy: Father McCarthy, Chicago Syndicate

He, doubtless, would have liked to pay glowing tribute to Volpe for uncovering wrongdoing. The trouble was there was no grounds for any such encomium. Volpe has provided plenty of talk but little action.

As Representative Perry indicated, it's an obvious fact that the Democrats don't have any copyright or monopoly on corruption and that all the crooks and connivers aren't Democrats.

It also is a hard truth that Volpe has capitalized skillfully on investigation conducted by Democrats but that he hasn't achieved any notable results from any probes of his own.

An investigation into the operations of the Waterways Division which Volpe ordered be made by State Administration Commissioner Charles Gibbons has proven pretty much of a dud even though Perry made public a long series of documented allegations.

The only one who has accomplished anything in the probe of the Waterways Division has been Democratic Attorney General Edward J. McCormack, Jr.

On the other hand, when Volpe ran for the Governorship in 1960, he made political capital of the wrong-doing in the Metropolitan District Commission exposed by a special State Senate investigating com-

mittee headed by Senate President John E. Powers.

The DPW land-taking scandal on which Volpe also is capitalizing was brought to public light by a Democratic-controlled congressional committee through hearings on Washington's Capitol Hill.

The scandals which have exploded, especially the one involving obvious fraud in the payments for properties taken by the DPW to make way for new highways, are shocking enough to dismay the average person and to affect the trend in an election.

But Volpe isn't doing any service for the State he presides over as Governor when he goes to Delaware to make a political speech and throws a little more mud in the direction of Massachusetts.

It also is unfortunate that Volpe's actions are not as forceful as the speeches turned out by his ghost writers.

#### Land-Damage Hearings Tell Incredible Story

One of the amazing aspects of the story being unfolded by the Blatnik Committee at its Washington hearings on the DPW land-takings is the incredible combination of brazenness and stupidity of some of the persons who were a party to a gigantic fraud.

As far as they were con-

cerned there apparently just wasn't going to be any tomorrow.

It evidently never occurred to them that one day there might be a check on ballooned appraisals or that someone might look into the qualifications of persons hired as real estate experts.

What really intrigues us is how a person hired as a real estate expert would think he could possibly avoid getting into trouble when he merely made a word-for-word copy of somebody else's report and then turned it in, knowing that the two identical reports recommending widely varying payments would be on file for any investigator to examine.

#### Richardson Now Rated GOP Atty. Gen. Choice

Former U. S. Attorney Elliot L. Richardson of Brookline, who originally started the investigation into the skulduggery in connection with the State Public Works Department land-taking scandal, appears to be far out in front in the race for the Republican nomination for Attorney General.

Richardson, who is slated to testify before the Blatnik committee before it completes its land-damage probe, may be opposed for the GOP endorsement by Attorney General before the Republican State Convention is held in June.

Boston Finance Commission Chairman Edward W. Brooke presently is contesting with Richardson for the right to run as the GOP candidate for Attorney General.

Many political observers expect, however, that Brooke may be persuaded to set his sights on some other office before the Republican delegates are called to order at their June conclave.

Brooke proved a potent vote-getter and an attractive candidate in the strong campaign he made for Secretary of State in 1960.

Republican leaders want him some place on their State ticket next fall, possibly as a candidate for Secretary of State, State Treasurer or even Lieutenant Governor.

With a hard fight for the GOP endorsement for U. S. Senate already shaping up between Congressman Laurence

### Simple Matter To Locate Fire Alarm Box Now

Ever wonder where the nearest fire alarm box is? Gamewell Company of Newton Upper Falls is ready with the answer.

Gamewell is offering to industry and communities a new identification band which will make fire alarm boxes readily visible even in the wettest, snowiest weather.

The bands, of vinyl-coated nylon, are brilliant red and white and eliminate the messy, time-consuming task of repainting fire poles every season.

The company is offering the bands in 10-yard rolls on which the word, "Fire" is printed at 9-inch intervals. On a standard 36-inch pole, the message will appear three times.

The bands are being offered under the name "Alarm Box I.D. Band."

Curtis and youthful George C. Lodge, Republican strategists would like to avoid a second battle within their party for the Attorney General endorsement.

If Congressman Curtis is picked as the candidate for U. S. Senate, an endeavor undoubtedly will be made to induce Lodge to accept the nomination for Lieutenant Governor.

Curtis, with his long record of service behind him, including 10 years in Congress and two as State Treasurer, would be unlikely to settle for a lesser place on the GOP State ticket, especially since he is now regarded as an expert on international problems as a result of his work on the House Foreign Affairs Committee.

## Temple Shalom Clergy Institute Is Held Friday

Author and Lecturer Albert Vorspan is guest lecturer at this year's Institute for Clergy at Temple Shalom of Newton which starts at 10 a.m. Friday.

The theme chosen by the greatest number of clergymen is "Changing Relations Among Protestants, Catholics and Jews." The Institute is under the chairmanship of Rabbi Murray I. Rothman.

Mr. Vorspan is Director of the Commission on Social Action of the Union of American Hebrew Congregations. This Commission is charged with the responsibility of supplying materials, counsel and programs to more than 630 Reform Congregations and some 300 social action committees to help them relate the ethical ideals of Judaism to the problems of contemporary society. Rev. Ray E. Eusden, minister emeritus of the Eliot Church of Newton will deliver the prayer at the opening of the Institute. Rev. James J. Casey, S.J., chairman of the Department of Theology at Boston College, will deliver the invocation at the luncheon to be served to the guests by the Temple Shalom Sisterhood.

Rev. Benjamin R. Andrews Jr., civic president of the Newton Council of Churches and the Association of Ministers and Rabbis of Newton.

Dr. Meyer Ritvo, President of the Temple, will welcome the assembly on behalf of Temple Shalom.

Friday evening Mr. Vorspan will be guest preacher at the regular Sabbath Eve Service at Temple Shalom.

## Golf Classes At Newton Y Are Underway

The golf classes at the Newton YMCA will start on Wednesday, February, under the able direction of two P.G.A. members, pro John Oteri of Ponkapoag Golf Club and pro Reggie Sauger of Bay Path Golf Club.

Originally, classes were offered at 10 a.m. and 11 a.m. and at 7, 8 and 9 p.m.; but because of the demand, a 12 noon class was added. At the present time the 10 and 11 a.m. and the 7 and 8 p.m. classes are filled, leaving only a few openings in the 12 noon and 9 p.m. classes.

These classes are designed for both the beginner and the player. The beginner is started off correctly and the player has the opportunity of having the "professional" correct his faults. It is not necessary to bring any equipment, save rubber soled shoes; however, if the students have clubs they would like to get used to, they may bring them.

This is the 14th season that these special classes have been run by top flight men starting with the late John Hoyt Kent, pro at Winchester Golf Club.

These classes are limited to 16 students so that the two instructors have plenty of time to give attention to the individual.

As demonstrated by the acceptance of these classes in the past years and the pre-registration of men and women in this program of the Newton Y.M.C.A., any interested persons should contact the "Y" immediately to insure a place in class for himself.

## Newton PTA Council Sponsors Special Movies For Children

The Creative Arts Committee of the Newton PTA Council will sponsor a film series especially produced for elementary school children to start on March 10 at the Paramount Theatre, Newton Corner, to run for eight alternating Saturdays.

The committee is co-chaired by Mrs. Alfred Bickelman and Mrs. Noah Bielski, and is composed of representatives of all Newton public schools.

Manager Alex Castoldi, of the theatre, was quick to cooperate with the PTA committee in arranging to have these films shown at his theatre. A committee comprising Mrs. Orrie Friedman, Mrs. David Nemoff and Mrs. Melvin Shoul arranged the showing with Mr. Castoldi.

The films are produced by the Children's Film Foundation under the auspices of the J. Arthur Rank organization. Series tickets will be sold through the individual schools at a reduced rate for the eight movies.

Showing time for the films has been changed from 1-3 p.m. to 1:15 to 3:15 p.m. to accommodate children taking the Oak Hill-Newton Corner bus, which arrives there at 1:10. The program will consist of a 15-minute serial with one installment each week, an hour feature film and appropriate cartoons and/or travelogues.

Because of the storm many calls have been received by those not able to order their tickets through the schools. To accommodate them tickets will be available at the Paramount Theatre on Friday, February 23, and Saturday, February 24. Orders may also be placed with the following chairmen: Angier—Mrs. Jack Porter, LA 7-9126; Beethoven—Mrs. Edward Williams, DE 2-2886; Bowen—Mrs. Seymour Silver, BI 4-4841, and Mrs. Henry Adelman, BI 4-0706; Burr-Murray Road—Mrs. Jerome O'Leary, LA 7-3818; Cabot—Mrs. Joseph Nemetz, BI 4-3486; Carr—Mrs. Bert Libon, DE 2-2001, and Mrs. Leon Elitov, DE 2-6821.

## State Play-

(Continued from Page 1)

lington's chances for an unprecedented fourth straight title. But the finish of the Newton - Somerville game was a complete surprise. Newton almost blew the game when goalie Don Mason pulled a leg muscle (hamstring) and was unable to continue with 1:55 left in the third period.

Newton's substitute goalie, junior Roger Newell, came in to replace Mason. It was Newell's second appearance of the season; the first was in the opening game, and he played then for only a few minutes.

Somerville began to press immediately. Bob Lupi of Somerville fired a backhand on Newell at 9:33 and caught him going the wrong way. Then with five seconds to go, Jim Quinn picked up a rebound and tied the knot at 3 - 3, assists going to John Mountain and Dick Hughes.

It was rough going for Newton all the way. John Aylward got Somerville off to a 1 - 0 lead at 5:01 of the first with a partially screened 25-footer.

Newton got back in action when sophomore Bill Cotter, the league's leading scorer, tied the score at 5:15 of the second period. The rubber hit the crossbar of the net and dropped in. It was the first of Cotter's two goals.

Pressure was applied by the Tigers for most of the third period. Charlie Scammon banked in Newton's second goal at 3:45 with a 35-foot drive.

Then Cotter upped his league-leading total to 23 when Mike Ryan fed him a pass. The Somerville defenseman tripped and fell to the ice. Cotter coolly shot from 25 feet out and the puck slid between Somerville goalie Dave Malozzi's legs and into the nets.

Moments later goalie Mason split to make a save and came up lame.

## Oldsmobile Dealers Set For Annual Holiday "Open House"

Local Oldsmobile dealers are making special preparations for the Washington's Birthday Open House this weekend, with a wide selection of 1962 F-85, 88 and 98, and Starfire models.

To be shown in a variety of exciting, spring-like colors, convertibles, station wagons, sedans, hardtops and coupes will be prominently displayed as part of this annual celebration.

Of special interest to visitors at Oldsmobile dealer showrooms will be two new F-85 convertible models introduced this year. The F-85 Cutlass convertible features sports type bucket seats, power-operated top, safety-padded instrument panel and the Cutlass 185 aluminum engine as standard equipment at no extra cost.

A new running mate for the Starfire convertible is offered in the increasingly popular Starfire hardtop coupe. This new Starfire model incorporates all the special features that have made Starfire the keynote to a new motoring adventure.

For 1962, Oldsmobile is offering six station wagons — three F-85's and three in the Dynamic and Super 88. Available with two or three seats, these versatile station wagons are offered with a wide range of interior colors and trim combinations.

## Mercedes-Benz, Studebaker Lark At Frost Motors

Residents in all sections of the Newtons are invited to visit the Frost Motors, Inc. at 624 Washington street, Newtonville, on Washington's Birthday.

Frost Motors is the dealer for both the luxurious Mercedes-Benz and the economy Studebaker Lark.

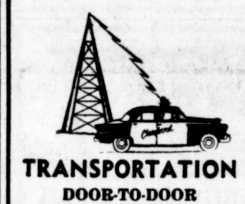

The dealership, which will hold open house and welcome all visitors on the holiday, is continuing its high sales volume.

That is the report of veteran sales manager Bill Larssen who has spent 41 years in the automobile business.

According to Larssen, the success of the company, which also offers a select line of used cars, is due to its "great reputation for service and integrity."

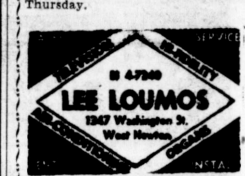

T. Russell Keery, president and owner, has been in the auto business since 1922. He is assisted by his son, Thomas Keery, who is vice president and sales manager of the Cadillac-Oldsmobile division of the company.

## Lee Loumos Says:

Have you become confused with our holiday observance? What with the new laws, coupled with the old blue laws, it's difficult to know whether to open one's business doors or not. If I am not mistaken this time, Sunday laws do NOT apply to February 22 — so knowing that so many of you will be roaming our area in your traditional visits to automobile showrooms, I have decided to remain open till 9 p.m. on Washington's Birthday and perhaps we can start a tradition of visiting your TV and Stereo Hi-Fi dealer on that day. At least you can find a place to sit and enjoy listening to some beautiful music played on superb Magnavox instruments — or if the weather has continued to delay the astro-shot, you might even see Col. John Glenn into orbit via TV. At any rate, we will have many attractive values for you including some close-outs on organs, and an exceptional "early-bird" offer on Faddars air-conditioning. See you Thursday.

## Reservations Going Fast For Hospital Aids' 'Mardi Gras'

A rush of last minute reservations is assuring the success of the Mardi Gras Ball on March 2nd, the Junior Aid Association of Newton-Wellesley Hospital announced today.

The co-chairmen said the West Newton Armory will be the scene of the gala fete, reminiscent of New Orleans during Mardi Gras. Don Russell and his orchestra will entertain from 10 p.m. until 2 a.m. Proceeds from the dance will finance Junior Aid projects at Newton-Wellesley Hospital.

## Why did you buy a house?

When you decided to buy a house, you were probably thinking primarily of your wife and children.

You wanted to be sure that they would have a nice home to live in—one that suited the family needs. Another concern was for the environment in which your children would grow up. You wanted good schools... plenty of play space... nice neighbors.

These are fine reasons for buying a house, and they're just as good for making sure that your family can keep it if something should happen to you.

Metropolitan offers several ways for you to make sure that your family will be left with a deed instead of a debt.

A Metropolitan Mortgage Term Plan is one way. It is designed to cover the usual type of home mortgage, which decreases each year as payments on the principal are made. The face amount of the insurance also decreases, so that the level premium is relatively inexpensive.

Another way, more satisfactory for most younger men, is a Metropolitan Whole Life policy. This is permanent insurance.

In addition to assuring that funds will be

available for payment of the mortgage in the event of death, it also builds cash and loan values which furnish a nest egg to help take care of payments in case of illness or other emergency.

And because the face value does not decrease, it can be used for continuing protection or be fitted into your retirement plans after the mortgage is paid off.

Your Metropolitan Representative will be pleased to explain these plans to you, and help determine which type is best suited to your particular family needs and budget allowances. So why not call him today.

## Fire Chief Asks Help Of Civic Groups

Fire Chief Frederick A. Perkins, Jr., this week asked the help and cooperation of Newton's civic groups and business establishments in following the simple methods which may be used to prevent many damaging fires.

Chief Perkins, discussing replacement costs, said that "even in small fires, where the firemen are able to confine the flames to one room, it costs property owners two to three times as much to re-furnish the burned-out areas as it did 10 years ago." The chief particularly emphasized the following points:

"1. Great damage to our city is caused by rubbish fires. If we remove the rubbish from our cellars, attics, and closets, fire losses will be eliminated."

"2. Buildings classified as conflagration hazards should be protected by automatic sprinklers. Such installation will pay for themselves out of savings in insurance premiums and as a result conflagration areas will be eliminated."

"3. Basement fires are the hardest to fight. Firemen have difficulty fighting their way in and often do not know what the conditions will be when they reach the basement. Since a large percentage of all business fires originate in basements, if these also were protected by automatic sprinklers, our country's nearly one billion dollars in fire losses would be greatly reduced."

The chief particularly emphasized the large number of fires caused from carelessness in handling matches and smoking. "Matches should be kept where small children cannot reach them and a liberal supply of ash trays throughout the house would reduce fires," the chief said. He particularly emphasized that, "if you value your life, do not smoke in bed!"

## Fourth Period Rally Wins For Newton South

Five points down in the fourth period, Newton South rallied midway in the fourth period to win its game with Cambridge Latin, 56 to 49.

The Newton Lions, with their usual hustle, led 16-14 after the first period, 26-20 at the half, but were trailing 41-36 with only eight minutes left to play.

Victory came, however, after Co-Capt. Bruce MacLean sank two foul shots and Co-Capt. Bob Kargosian dropped in a jump shot.

MacLean then scored two points and Tom Mick another on a foul.

High scorers in the game were MacLean, 14; Karagosaian and Mick, 11 each.

## Newton Rabbi In Service At Maine College

A Newton Rabbi was among four spiritual leaders who participated in a Religious Emphasis Week program at Nason College in Springvale, Maine, last week.

Rabbi Murray I. Rothman, Shalom in Newton, conducted services in the new Huse Chapel and led a discussion group on the topic of "The World Crisis: Effects on Ethical Attitudes and Church Relationships."

Rabbi Rothman also lectured to classes in "Development of Civilization," "Philosophy," and "Freshman English." In addition he was available for private counseling.

The Nason REW program was sponsored by the college's Interfaith Fellowship.

## School Committee Against Bill

Members of the Newton School Committee have adopted a resolution opposing a bill now pending before the State Legislature which would require the teaching of communism in public schools.

The Newton School Board members feel that the enactment of the proposed law would be an interference with the fundamental right of School Committees to decide on school curricula. They are urging that the matter be left to the discretion of School.

The obvious objective of the bill making the teaching of communism mandatory is to show the weaknesses in the communistic form of government. However, the wording of the bill is such as to indicate that the subject be taught for propaganda purposes.

Copies of the Newton School Board resolution will be sent to members of the legislative committee on education.

## Two Pedestrians Killed by Autos In N. Highlands

Motorists and pedestrians both have been cautioned by authorities to exercise increasing caution after the city recorded the death of a second pedestrian in as many days last week. These were Newton's first highway deaths of 1962.

Miss Katharine Howard, 64, of 265 Dover Street, Westwood, was fatally injured by a automobile last Tuesday while crossing Lincoln Street in Newton Highlands Square.

And the following day, within a mile of that location, Lawrence D. A. Skelton, 76, of 1124 Boylston street, Newton Highlands, was struck by a car as he crossed the Worcester Turnpike near his home in Newton Highlands.

Miss Howard was struck at 4 p.m. and died an hour later at Newton Wellesley Hospital. Mr. Skelton was struck at 6:30 p.m. while coming from the nearby Eliot MTA station and was pronounced dead upon arrival at the hospital.

The driver of the car which struck Miss Howard, a Newton Centre resident, told police he was making a left turn at a speed of about five miles an hour and was blinded by the sun. A witness said the woman stepped from between two parked cars.

Her death was the first auto fatality in Newton in 1962.

Miss Howard leaves a brother, Charles Howard of Westwood, and a sister, Mrs. Jane Armstrong. Funeral services were held last Thursday at 2 p.m. in the First Congregational Church, Newton Centre.

Police said the auto which struck Mr. Skelton was driven by a Framingham man who was proceeding west in the passing lane of the Turnpike.

The victim was employed in the Skelton's Hardware Company at 1223 Centre street, Newton Centre, of which his brother, William Skelton of 5 Channing road, Newton Centre, is president and treasurer.

Besides his brother, Mr. Skelton leaves three sisters, Miss Celi Skelton, with whom he made his home; Mrs. Ann Fish of Waltham and Mrs. Sarah Williams of London, England.

Rev. Elmo F. Young, pastor, officiated at the Newton Centre Methodist Church, at funeral services for Mr. Skelton last Saturday at 2 p.m.
